COURSE OVERVIEW

The Occupational Certificate: Healthcare Cleaner course is designed to equip learners with the necessary skills and knowledge to work effectively as a cleaner in a healthcare setting. This includes understanding cleaning procedures, hygiene protocols, and the safe use of cleaning chemicals and equipment in various healthcare environments such as hospitals, clinics, and care homes. The course emphasizes the importance of maintaining a clean, safe, and sanitized environment to prevent the spread of infection and promote patient and staff safety.

COURSE OUTCOMES

On completion of the program, you will be able to:

- Understand and implement cleaning procedures in healthcare settings.
- Apply hygiene and infection control practices to ensure a safe environment.
- Safely use and maintain cleaning equipment and chemicals.
- Perform cleaning tasks in different areas of healthcare facilities, including patient rooms, wards, and public areas.
- Recognize and manage potential health and safety risks in a healthcare cleaning environment.
