2-6 Colmore Row

PROGRESS WEEK 24 – 28

Works progress behind the scenes

The internal refurbishment is progressing well, with specialist trade contractors transforming the building into a modern, high-quality space that complements the character of Colmore Row.

Site safety remains a key priority, with dedicated traffic management ensuring the safe coordination of deliveries and efficient project operations.

The external works are now in the design phase, retaining the building's character while introducing a contemporary ground-floor frontage along Bull Street and Colmore Row.

Social value and community engagement

This month, our social value initiative is supporting the children's book project by collecting pre-loved children's books for donation to children who may not have access to books of their own. Through this initiative, we aim to encourage a love of reading, support literacy development, and help ensure more children have the opportunity to own and enjoy books.

We welcome donations of good-quality children's books and thank everyone for helping us make a positive difference in our local community.

Keeping you updated

We will continue to share updates as the project progresses. We value your feedback and remain committed to keeping you informed while working collaboratively throughout the project.

Thank you for your patience and support.

Kind regards,
McLaren Construction

Overview

- Works commenced: 07 April 2026
- Programme: 54 weeks
- Registered for Considerate Constructors Scheme
- Targeting BREEAM Excellent
- Smart Waste BRE
