

AEONrv to Launch 2025 Model at Overland Expo Pacific Northwest

Reno, NV – June 2025 — [AEONrv](#), the Reno-based company redefining the RV experience, will unveil its **2025 model to the public for the first time at Overland Expo Pacific Northwest**, June 27–29, 2025, in Redmond, Oregon.

Built for true all-season, off-grid travel, the AEONrv continues to push boundaries with its high-tech design, off-road performance, and thermal efficiency. The public debut at Overland Expo comes just weeks after AEONrv was named [Nevada's 2025 Manufacturing Company of the Year](#) by the Nevada Center for Entrepreneurship and Technology ([NCET](#)) — an honor recognizing its leadership in advanced manufacturing and innovation. The company is on track to deliver over 100 vehicles this year, driven by strong nationwide demand.

“This is the first time anyone outside our factory will get to experience the 2025 AEONrv up close,” said **Jim Ritchie**, CEO of AEONrv. “It’s engineered for adventure and built for those who go beyond—with smarter power systems, refined interior options, and more capability than ever. Overland Expo is the ideal venue to connect with people who live for the kind of exploration AEONrv was made for.”

What’s New in the 2025 AEONrv

AEONrv’s flagship model introduces a new category of RV—engineered on a rugged 2025 Ford Transit 350 AWD chassis and equipped with marine-grade materials, intelligent off-grid systems, and modern design built for today’s adventurers. The 2025 version refines that platform even further, with upgraded systems and new options tailored for serious exploration.

Key new upgrades in the 2025 model include:

- **Exterior Customization Options** – New body color choices and full-body vinyl wraps with a 10-year warranty offer a sleek, rugged look tailored to each owner's style.
- **Smarter Power Systems** – A robust 24V off-grid energy system with up to **13.6kWh lithium battery capacity**, **800W solar**, and **3,000VA inverter**—with remote system monitoring via Victron Cerbo GX.
- **Enhanced Off-Road Readiness** – Available **brush guards**, **winch-ready front bumpers**, **roof racks**, and **recovery gear mounts** take backcountry capability to the next level.
- **Tech-Forward Interior** – New **light or dark cabinetry options**, frameless European-style cabinets, and marine-grade materials elevate both aesthetics and durability.
- **Advanced Connectivity** – Factory prewired for **Starlink**, cellular boosters, and WiFi integration to support full-time remote work and adventure.

Why Overlanders Should Check It Out

Whether you're a weekend warrior or full-time traveler, AEONrv is engineered to meet the demands of rugged backcountry access, year-round comfort, and complete off-grid independence. It's the first truly all-season, electric cabin RV built for real adventure.

Visit **Booth G500** at Overland Expo PNW to tour the 2025 model, meet the AEONrv team, and see why more overlanders are making the switch. With production ramping up and delivery slots filling quickly, this is your chance to experience AEONrv before it hits the road nationwide.
