

JOB TITLE **Project Engineer**

DATE Oct 2025

REPORTS TO Project Manager

JOB DESCRIPTION

Purpose of role	Responsible for all engineering and technical disciplines that projects involve. You will schedule, plan, forecast, resource and manage all the technical activities aimed at assuring project accuracy and quality from conception to completion.
Main duties and responsibilities	- Collaborate with the project team to create more efficient methods and maintain profitability. - Main offsite activities and detailed design elements to ensure onsite activities occur in line with the construction program. - Develop the specifications for all equipment that is required for each project. - Create the framework used to develop and monitor project metrics and manage the collection of project data. - Formulate realistic parameters for each project, including design elements and implementation procedures. - Establish the methods by which all field tests are administered and develop various ways to monitor the quality of those tests. - Prepare, schedule, coordinate and monitor the assigned engineering projects. - Monitor compliance to applicable codes, practices, policies, performance standards and specifications. - Interact daily with the subcontractors to interpret their needs and requirements and represent them in the field. - Perform overall quality control of the work (budget, schedule, plans, personnel's performance) and report regularly on project status. - Assign responsibilities and mentor project team. - Cooperate and communicate effectively with Project Engineer and Project Manager and other project participants to provide assistance and technical support. - Review engineering deliverables and initiate appropriate corrective actions. - Be aware of and adhere to the IMS policies and procedures that are relevant to your work. - Work in a safe manner without risk to self, others or the environment.
Other duties	- Seek assistance if uncertain of any Health & Safety, Environmental or Quality requirements. - Comply with all emergency and evacuation procedures. - Report all incidents to your immediate Manager. - Report any hazards or environmental aspects to your immediate Manager. - Implement IMS system on site, including assisting site supervisor with preparing and completing ITPS. - Participate in Safety Walks - Carry out site inductions.

- Review technical design and coordinate in assisting the Design Manager.
- Assist with obtaining CC documentation.
- Assist with planning portal and OC Documentation
- Fulfil other duties as required by management and other department personnel as requested/required.
