PERSONAL BIO

ROBERT STEWART

Robert Stewart has been chasing guffaws since the days of doodling wonky characters in the margins of his school notebooks. Now he channels his creativity into handcrafting cartoon universes, comics, and games that are bold, brilliant, and bonkers.

Inspired by people-watching, real life, and his own hyperactive imagination, Robert devices amusing observations and zinger punchlines. With a sharp eye for talent and a knack for impeccable delivery, his hand is in every project, personally ensuring that they’re as quirky, weird, and witty as he envisioned.
