

HARD ROCK STADIUM, MIAMI

INSTALLATION: SubAir Sport System is installed at Hard Rock Stadium, home field to the

Miami Dolphins and University of Miami Hurricanes and Super Bowl LIV.

COMPLETED: Summer 2019

TURF MANAGER: Tom Wilson, Head Groundskeeper, Miami Dolphins and Hard Rock

Stadium

ATTRIBUTES: The SubAir Sport System supports overall turf health, virtually

eliminating diseases while maintaining the continuous, consistent

growth of deep rooted, resilient, healthy grass.

Newly installed drainage pipes, water separator, and pumps connect with

the SubAir Sport System and TurfWatch™ controls to create and monitor

the best turf growing environment.

TECHNOLOGY: This system has SubAir's latest technologies available, including wireless

in-ground sensors relaying subsoil conditions through a secure dedicated

communications network. TurfWatchTM Technology integrates field sensors to the SubAir Sport Control Console to interpret and respond to

changing turf conditions. The network also provides access to turf

manager via any web connected device to review conditions and activate

the system remotely providing 24/7 access.

FUN FACTS: 1.5 miles of drainage pipe network under playing field

Air is travelling approx. 60 miles per hour from the SubAir Sport system

through the underground pipes into the gravel layer.

Entire field is treated at the same time

SubAir Sport can remove more than 18,000 gallons of water per minute

from turf including standing water on surface

FEATURES: Aerates entire field concurrently

Controls moisture removal from turf

Moderates temperature extremes to maintain strong root system

50% faster turf recovery time

Reduces permanent damage from events limiting the need to re-sod

Extends the growing season

ABOUT SUBAIR: SubAir Systems is the leading designer, developer, and manufacturer of

subsurface aeration and moisture management systems that moderate

and control subsoil environmental conditions.

Product lines include SubAir Golf, SubAir Sport, and All-Access PLUS+, as

well as TURFBREEZE™ fans and TURFWATCH™ technology.

MANAGEMENT: Jay Penney, CEO

Bruce Mikkleson, Director of Technology

Jeremy Reese, Agronomist
