

## **NXUS CPL:** Powering Your Next CPL Win (& Looking like a Legend)

UCPM built NXUS CPL with one simple goal. We want to help producers like you win more environmental accounts, keep them longer, and do it without losing your weekends to policy comparisons and compliance headaches.

NXUS CPL is UCPM's contractor-focused environmental insurance solution engineered with the flexibility to meet the unique needs of every construction firm, from small subcontractors to national GCs, across every project type.

#### HOW CAN NXUS HELPYOUR BUSINESS & ADD VALUE TO YOUR CUSTOMERS?

- · Increase your environmental business and protect your clients with the benefits of environmental insurance.
- Keep your customers happy and positive with meaningful client interactions.
- · Access premier sales tools and marketing support via UCPM's customer platforms and environmental risk resources.
- Access to proactive outreach and educational tools low-effort with high-execution for products.

### Two Guarantees Make it a Producer's Dream

Favorable Wording Guarantee: If the old policy had better CPL wording in a claims scenario, we'll honor it.

Contract Owner Guarantee: If compliance keeps your client off the job site, we'll fix it at no extra cost so they can get back to work.

## **NXUS MAX:** The All-In, No-Hesitation Coverage

When you walk into a client meeting, you don't want to hope you've got the right solution. You want to know it. NXUS MAX is the most comprehensive contractor pollution liability form in the market, designed so you can skip the exhausting line-by-line coverage battles. It's your mic-drop moment. You can, in less than 3 minutes, generate a bindable quote with comprehensive coverage that satisfies even the most stringent contract requirements.

And because we're not just about coverage, MAX also comes with CERC Certification and Pollution Prevention Practices, turning your clients into the kind of environmentally responsible contractors project owners love to hire.

# Faster Binding, Better Claims — Flexibility & Speed on Your Terms

#### **VALUE-ADDED SERVICES:**

- Environmental Risk Professionals (ERP), an environmental consulting firm that provides services tailored for companies to mitigate their environmental risks.
- Certified Environmentally Responsible Contractor (CERC) is a certificate program run by ERP that
  recognizes contractors who train their employees to understand and mitigate environmental risks
  associated with their business.
- Pollution Prevention Practices (PPPs) that can help educate you and your customers on many common environmental risks.
- Marketing kits, including email templates & one pagers that are customizable & co-brandable.
