

Innovative Solutions for an Evolving Landscape

Environmental insurance is a complex niche, and utilizing a specialist can make the difference in effectively placing coverage for your clients. UCPM is a wholesale broker and program manager who has specialized in environmental insurance for over 30 years. Our expertise, market representation and commitment to delivering value-added services position us to be your resource in placing environmental insurance for your clients.

EXPERIENCE MATTERS

In the highly specialized world of environmental insurance, simply having access to a market doesn't mean a risk is being appropriately placed or priced. UCPM's experienced brokers can assist in developing insurance strategies and help you understand risk exposures, determine coverage needs, navigate the ever-changing marketplace and place appropriate coverage.

DELIVERING VALUE

Our goal is to help position you as the expert with your clients when it comes to environmental insurance. Through our industry experience and in-house technology capabilities, we provide innovative tools and resources that help you stand out and deliver added value to your clients.

Product-Focused Specialization

We can help you meet the specialized coverage needs of your clients across a vast range of businesses and industries. To deliver the highest level of service and expertise, UCPM has dedicated focus on industry and coverage niches which include:

CONSTRUCTION

Coverage placement for contractors and construction risks, including contractors pollution liability, contractors pollution/professional liability and OCIP/CCIP. We provide online solutions for streamlined risks and experienced brokering for more complex risks.

FACILITIES

Insurance strategies for site liability, products pollution, lenders environmental and energy risks.

ENVIRONMENTAL CASUALTY PACKAGES

Combined policies with General Liability and Pollution for environmental facilities, environmental contractors and environmental consultants. Additional coverage can also be combined, such as professional liability and products liability.

STORAGE TANK

Placement for aboveground and underground storage tank liability through online and brokered solutions.

TRANSPORTATION

Coverage options for a variety of transportation risks including for-hire general haulers, hazmat haulers, and companion auto placement on risks where we place the GL.

Market Representation

UCPM has access to **60+** carriers that write environmental and related insurance, many of whom prefer to work with, or choose to make their products only available to specialty wholesalers like us. With our position as an industry leader and leverage in the marketplace, we strive to create competitive environments that encourage carriers to compete for your business on both coverage terms and pricing.
