

# ORIGIN DUCTWORKS

## STRUT HANGER

These duct hangers are designed for efficient strut-channel mounting, making them ideal for installing ductwork close to ceilings equipped with structural struts. Built from galvanized steel or 304 stainless steel, each hanger includes the necessary nut and bolt for fast, streamlined installation. Tested by MET Laboratories, they reliably support up to 170 lbs on 9" ducting and up to 850 lbs on 20" ducting, ensuring dependable performance in demanding environments. Stocked in sizes from 3" to 24" and available for overnight delivery, these hangers offer exceptional value, helping you save time, reduce labor, and increase productivity on any ductwork project.
