

# ORIGIN DUCTWORKS

## DROPOUT BOX

The Dropout Box is designed to remove large wood chips from the airstream, keeping dust collection systems running efficiently in high-volume shops. Internal deflectors within the duct deflect chips downward into a built-in hopper, reducing the frequency of bag emptying and minimizing downtime. Constructed from 14-gauge galvanized steel, it is ideal for shops with machines that generate significant waste and currently collect into plastic bags. When ordering, be sure to specify the diameter and end style to ensure proper fit.

Øin.	Outlet Ø in	Length in	Height in	Std. Weight Lbs.
6	4	44	20.25	60
7	4	44	20.75	64
8	6	44	21.25	69
9	6	44	21.75	75
10	8	44	22.25	80
11	8	44	22.75	85
12	10	44	23.25	89
14	12	44	24.25	96
16	14	44	25.25	106
