========== I just passed HSK 4 and I have to say it was a great experience. When I started preparing for my test, my teacher Amber used the HSK Standard Course series from our Chinese school. The materials really helped me understand how to approach the test. In fact, everyone in our class passed with flying colors! After that, I continued using this course and found it easy to progress to HSK 3 and then 4. The HSK Standard Course is an excellent resource for anyone who wants to improve their Chinese language skills. It uses a humorous style, familiar topics, and a scientific design to make learning fun and engaging. The course covers all aspects of the test, from content to form, and matches the levels perfectly. I highly recommend using it in conjunction with DigMandarin's HSK One Stop Courses. Unfortunately, some parts of the original resources were shared online without permission from the copyright holders. If you're looking for digital versions, I managed to find them after searching everywhere. However, there are still many others who want the full series, including books 5 and 6. One user kindly offered to share their workbooks, audios, and even MP3s for free. You can download the Audio of HSK 1 and HSK 4A for free from the Resource Center of Beijing Language Press's website after registering and earning points. Another user shared their audios with me, which I'll be happy to send to you if you'd like. If you're looking for workbooks or need help accessing the materials, please don't hesitate to reach out. There are many other users who have found them online and would be willing to share them with you.Looking forward to receivng the audio files at ? Thanks!
