Our Curriculum

We cover the essentials: core academic courses — and electives, too. From astronomy to zoology, with remedial through advanced curricula, we mold programs to our students' learning styles. Our teaching is hands-on and maximally interactive by nature. And our small-classroom advantage provides seminar-like opportunities for in-depth interaction.

Our Students

Our individualized curriculum and flexible scheduling serve a wide range of students who...

- 🎯 thrive on maximum interaction and direction from teachers
- 🎯 find traditional classrooms distracting, uninteresting, or stressful
