WHAT HAPPENS EVERYDAY THANKS TO YOUR GENEROSITY

Patient receives second chance at life

Because of Good Samaritan, Delores knew her need was life-threatening

Delores found out about Good Samaritan Clinic some time ago from a friend who knew she did not have health insurance. She's thankful that she went ahead

“When I got there, they sent me to UAB, and I ended up having emergency open heart surgery.”

and became a patient because when she had problems breathing a few months ago, she knew just what to do. She called the Clinic and spoke with the nurse who advised her to go straight the ER. Delores says, “when I got there, they sent me to UAB, and I ended up having emergency open heart surgery.” Thankfully, Delores received the prompt care she needed. She says, “if I hadn’t been a patient at Good Samaritan, I probably would have died. I really appreciate people who donate to the Clinic because it helps people like myself.”

Volunteer Highlight

Welcome to the Clinic our newest volunteer, Michael Chatham. Michael sums up his role as a volunteer by saying, "Whatever I can do to help!" And that is the absolute truth. From cleaning and organizing our storage hall, to calling patients to answer a COVID question-

naire, to assisting patients with referral paperwork, Michael displays the most congenial spirit and demeanor.

Tell us a little about yourself:

I am a non-traditional student with a strong desire to become a physician in a rural part of Alabama in the hopes of being a useful part of the bridge that spans the healthcare disparity gap. My wife, Amber, and I are expecting our first child at the end of May (Yay!). I hope to attend medical school at UAB. Working towards being a first-generation physician is a struggle, but the experiences and knowledge gained along the way have been incredible.

Why do you choose to volunteer at Good Samaritan Clinic?

Good Samaritan Clinic provides a much-needed service to our community. Fair access to healthcare is vital not only for the specific individual but for lives each person can change. I have been fortunate to witness and hear patients share stories about Good Samaritan changing lives and outcomes. I strongly recommend everyone to consider sharing their time here!

What is most gratifying to you about volunteering at the clinic?

Knowing that patients who otherwise would be unable to afford healthcare get professional, loving care for free is a wonderfully hard to replicate feeling. Even tasks that do not have direct patient interaction are satisfying because I have the privilege of saving time for the experts to do their much-needed work.

Thank you, Michael! The staff and patients are grateful you choose to serve our community through Good Samaritan Clinic. We know you will do amazing things as a physician one day.

Did you know Word of Mouth is the most common way Good Samaritan patients hear about the Clinic?

If you know someone without health insurance, please encourage them to apply for our services. Visit us at www.goodsamaritancullman.com for further information, including our eligibility application. If assistance is needed, someone will be happy to assist them in completing the application. Simply call 256-255-5963 to schedule an appointment.

Thank you for helping us raise awareness about the Clinic and connecting us with those who could benefit from our free services.
