SOLUTIONS**

GET BACK ON THE RAILS

Rotobec is known as a worldwide leader in many industries, and the railroad sector is no exception. Our innovative designs are built for reliability and durability, which is how we have raised the bar through decades of innovation and knowledge to bring you world-class quality. Strength and efficiency are required for reliability to meet time requirements, we have your back when it comes to moving railroad ties.

Each component of our products is designed and manufactured in our production facilities in Sainte-Justine, Quebec (Canada) and in Littleton, New Hampshire (USA), to bring you the highest quality. We use the most advanced technologies throughout the process and the result is simply the best material equipment available out there.

Unbeatable quality and nothing less. This is the promise Rotobec has been delivering throughout the years wherever you are in the world. We have worked hard for you. This is why today Rotobec products are globally recognized and trusted, making us the world leader in the industry.

We are Rotobec.

TRACK.**

TIE BUNDLE GRAPPLES

Rail ties are the lifeblood of the railway industry. Without them, there would be no rails and no trains. Efficiently handling rail ties, both new and used, requires unique attachments designed specifically for this purpose. Our Tie Bundle Grapple is designed for handling bundles from 5 to 9 ties wide. In the mill yard, we know efficiency is key. We have designed our rail grapples so that you will never drop a rail tie thanks to our CDS technology for reliable and strong cylinders. When it comes to handling rail ties there is simply no better way than with one of our unsurpassed Tie Bundle Grapples.

**NOTHING
ESCAPES

LOOSE TIE GRAPPLES

Without railroad ties, there would be no rails and no trains, they are the heart and soul of the railway industry. Efficiently handling rails and rail ties, both new and used, requires unique attachments designed specifically for this purpose. The Rotobec Loose Tie Grapple is a modified version of our Combination Grapple, used for handling ties and rail sections. The Loose Tie Grapple goes hand in hand with our Elite Loaders for maximum agility, speed, and efficiency, exactly what you need on the rail side. It can also be mounted on a larger carrier to meet all your needs. Level up your rail tie handling game with our amazing rail grapples.

Specifications and models may vary without notice. For the most accurate and up-to-date information, please visit our website or contact your regional sales representative.

WE'VE GOT
YOUR BACK.

ROTOBEC

■ At Rotobec, we believe true strength isn't about claiming victory - it's about showing up, every day, for those who count on us.

Like you, we've earned our place through hard work and commitment. And like you, we never take it for granted. Every bolt we tighten, every call we answer, every piece of equipment we build - it's all done with purpose, precision, and pride.

We believe reliability is the truest form of respect. It's what turns machines into trusted partners, and challenges into shared achievements.

Because when you lift others up, everyone rises.

That's what drives us to keep improving, keep listening, and keep building - not just stronger equipment, but stronger relationships.

Together, we aim higher. If it doesn't exist, we'll create it. If the horizon looks tough, we'll face it - side by side.

We are Rotobec.

The power that lifts you up.
