

# SR410 FINISHING SCREEN

**ANACONDA**<sup>®</sup>  
A McLanahan Company

The Anaconda SR410 is a compact tracked inclined screen designed for secondary applications including aggregates, sand, gravel, topsoil, wood chip and overburden. Designed with ease of transport in mind, it fits within a standard 40' high cube container and is easy to move between sites. With a setup time of just 20 minutes, it is a cost-effective solution for contractors, rental fleets and projects in developing regions or urban environments.

Capable of handling up to 200 tph (220 US tph) with a maximum feed size of 75 mm (3"), the SR410 is equipped with a 3,000 mm x 1,200 mm (10' x 4') two-deck screenbox that can be adjusted between 28° and 36° to suit a wide range of materials. Delivering big output in a compact footprint, the Anaconda SR410 is a dependable choice for mobile screening.

## FEATURES

3,000 x 1,200 mm  
(10' x 4') two-deck  
screenbox

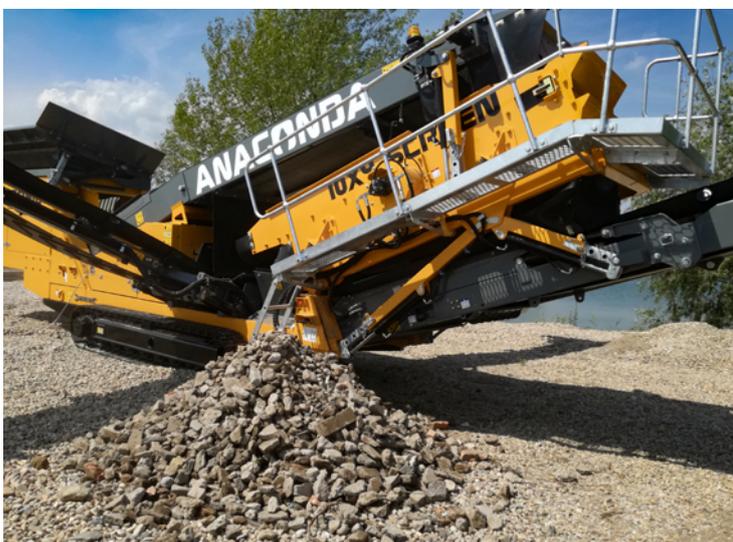

Adjustable screen angle  
between  
28° to 36°

Adjustable spreader  
plate to optimise  
material distribution

Variable belt speed on  
all stockpile conveyors

Screenbox walkways for  
maintenance and mesh  
change

Compact footprint with  
container-fit dimensions
