KRPAN

KR

U - PROTECT F

UF

Chain for special vehicles, intended for storage and removal of wood. Due to a combination of forged "S" shaped parts and rings, it is intended for work in difficult conditions, mainly on rocky and harder ground.

- Distinguished by minimal sideways sliding, good tyre protection and minimal damage to the ground on which it is used;
- Made of special alloy steel and fully heat treated, which extends its life span additionally;
- Available in 11 mm, 14 mm, 16 mm and 18 mm versions;
- The chain has a tensioning system, which enables use on all types of tyres and adjustment to worn tyres;
- Due to its construction and forged parts, it cleans itself during driving;
- Installation instructions and spare parts are included.

Packaging: 1 pair in a wooden crate

	11	14	16	18
A	10 mm	13 mm	16 mm	16 mm
B	11 mm	15 mm	16 mm	18 mm
H	45 mm	60 mm	60 mm	70 mm

Chain for special vehicles, intended for storage and removal of wood and work in the most difficult conditions.

- Distinguished by good traction, vehicle stability and optimal tyre protection;
- Made of special alloy steel and fully heat treated (carburising). Toughness gained by the material through such processing additionally extends the life span of the chain;
- Available in 11 mm, 14 mm, 16 mm and 18 mm versions;
- The chain has a tensioning system, which enables use on all types of tyres and adjustment to worn tyres;
- Due to its construction and forged parts, it cleans itself during driving;
- Installation instructions and spare parts are included.

SKIDDER

KS

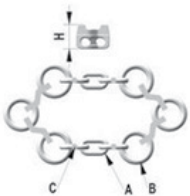

Chain for special vehicles intended for harvesting and removing wood, and work in demanding conditions.

It is characterised by good traction, and vehicle stability.

- It is made of a special steel alloy and is completely heat treated (cemented). The toughness gained by the material after this treatment further extends the life of the chain.
- The chain is available in 11 mm, 14 mm or 16 mm versions.
- The chain has a tensioning system, allowing use on all types of tyres and adjustment on worn tyres.
- Lighter construction that cleans itself while driving.
- Installation instructions and spare parts are included.

Packaging: 1 pair in a wooden crate

GRIP STUD

GS

Tractor chain for forestry, intended for less demanding terrain. The chain is distinguished by good driving properties and traction.

- Due to its construction, the chain is easy to use;
- Made of special alloy steel and fully heat treated, which extends its life span additionally;
- Available in 8,5 mm, 10 mm and 12 mm versions.
- Installation instructions and spare parts are included.

Supplied in a durable fabric bag or wooden crate, depending on the size.
