

XPE0810

- Oil-electric dual-purpose power system, the whole machine is fully electric driven, with low energy consumption.
- The discharge port is hydraulically adjusted, which makes the operation more convenient.
- Equipped with a pre-screening machine for higher capacity.
- Intelligent continuous feeding system, smoother material flow and more continuous production.
- Wireless remote control, one-key start and stop, intelligent fault diagnosis, remote monitoring, graphical touch screen operation interface.
- Graphical operation interface, more convenient for users to operate.
- Equipped with the magnetic separator, it is capable of separating ferromagnetic materials.
