

# XPE0912

- Hydraulic adjustment of discharge port, hydraulic tensioning of toggle plate, touch screen operation, with real-time display of discharge port size.
- The pre-screening machine is equipped for higher production capacity; intelligent continuous feeding system can automatically adjust the feeding speed based on material level, load and other information, ensuring more continuous production.
- Wireless remote control, one-click start/stop, intelligent fault diagnosis, remote monitoring, graphical touch screen operation interface.
- Spray dust suppression system, applying mist suppression at all dust-generating points for improved environmental protection.
- Equipped with the magnetic separator, it is capable of separating ferromagnetic materials.

## Mobile Jaw Crushing Plant

| Product Model        | XPE0912                      | XPE0912G                     |
|----------------------|------------------------------|------------------------------|
| Power Drive Mode     | Oil and Electricity Dual Use | Oil and Electricity Dual Use |
| Maximum Feeding Size | 700 mm                       | 700 mm                       |
| Crusher Opening Size | 870x1200 mm                  | 870x1200 mm                  |
| Processing Capacity  | 160~500 t/h                  | 160~500 t/h                  |
| Machine Weight       | 71 t                         | 71 t                         |
| Engine Brand         | SCANIA SCANIA (National III) | SCANIA SCANIA (National IV)  |
| Engine Power         | 364 kW                       | 368 kW                       |
