

ABOUT ME

I am passionate about no-code tools, especially websites implemented on Webflow and applications in Bubble. I have several years of experience in designing and implementing websites and web applications, implementing over 200 projects using WordPress, Figma, Webflow and Bubble. I have completed courses on: creating applications (Bubble Masters), graphic design in Figma (Digital Designer), front-end and no-code (Webflow University and Webflow Designer).

I specialize in creating responsive interfaces, UI/UX optimization, and using AI to streamline work.

I focus on the quality of implementation, aesthetics, BEM and refined RWD, which translates into customer satisfaction and minimal corrections. I am constantly developing in the no-code area, implementing innovative, effective and increasingly advanced projects.

Ościsłowska Anna

Webflow Developer
Bubble Developer
Webmaster
UI Designer

SKILLS

* **No-code/Low-code Tools: Bubble (API integration), Webflow, make**

I deliver advanced no-code solutions and build complex applications efficiently

* **WordPress (HTML, CSS, JS) with Divi, WPBakery, Elementor**

I design and optimize websites

* **Working with Figma**

I proficiently create and analyze graphic projects

* **UI/UX optimization**

I implement intuitive and aesthetic solutions to enhance user experiences

* **Innovative use of AI**

I use AI to streamline workflows and create better solutions

* **Interface implementation**

I transform graphic designs into responsive and functional layouts

* **Working with Trello and Asana**

I effectively manage projects using these tools

EXPERIENCE

FREELANCE/Useme 2024–2026

Websites and WooCommerce store implementation – Delivered projects following best practices using Webflow and WordPress + Elementor / Divi.

Web application development – Designed and implemented applications using Bubble.

Independent project management – Directed all project phases, from planning to execution.

Use of modern tools – Developed responsive and functional solutions using the latest technologies.

Ensured high-quality outcomes – Focused on user and performance optimization for better project results.

WEBMASTER 2020–2023

Created over 200 websites – Projects built using WordPress and Divi, HTML, CSS and JS.

Worked with various WordPress tools – Experience in creating websites using WPBakery and Elementor.

Effective communication with clients – Improved client communication, resulting in higher satisfaction with projects.

Elevated project standards – Introduced standards that ensured more refined deliverables, eliminating the need for major revisions.

Comprehensive project management – Managed the entire process, from design to deploying the website on the client's server.

Changed company approach – Shifted the team's focus to quality over quantity, reducing errors and enhancing client satisfaction.

Technological versatility – Skillfully combined various technologies and tools to achieve optimal results.

EDUCATION

Shopify/Shoper studying

I am learning how to create and develop online stores in Shopify and Shoper, expanding my capabilities in e-commerce solutions and online sales optimization.

Webflow Designer 2025

I completed the course on designing and implementing websites using Webflow organized by Design Practice (designing from scratch to advanced projects in Webflow, Figma to Webflow plugin, language versions, CMS, CSV import, BEM, Client First, Relume, animations, interactions without/with ChatGPT, SEO, Accessibility, Custom Code, Components, Properties).

Bubble Masters 2024

Completed a course where I designed, implemented, and launched my own application using Bubble, XANO, and OpenAI API.

Webflow University 2023–2024

Completed all courses and passed all four certified exams.

Digital Designer 2023

Completed a web design course in Figma organized by Design Practice, covering UI Design, UX Design, Design Systems, Web Design, and prototyping.

Front-end Developer 2020

Completed courses in HTML, CSS and JavaScript.

Graphic Designer 2018

Completed a course on Photoshop, Illustrator and InDesign.

I hereby consent to the processing of personal data included in this document for the purposes of the recruitment process, in accordance with the Act of May 10, 2018, on the Protection of Personal Data (Journal of Laws of 2018, item 1000) and in accordance with Regulation (EU) 2016/679 of the European Parliament and of the Council of April 27, 2016, on the protection of natural persons concerning the processing of personal data and on the free movement of such data, repealing Directive 95/46/EC (GDPR).

MOTTO

Everything in life can be learned.
