The Elegant Escape is a two-story Mediterranean design that makes its first impression with warm stucco, a natural stone base, tiered rooflines, and a signature arched window crowning the second floor. Within its 3,389 heated square feet, the plan delivers the scale of an estate and the ease of a family home.

The main level flows from a generous great room into a chef's kitchen with double ovens and a walk-in pantry, while the primary suite claims its own wing with a private sitting area and direct porch access. Upstairs, three bedroom suites surround a recreation loft and balcony; out back, a stone-clad pool with dual waterfalls, raised spa, and pergola-covered outdoor kitchen completes the picture.
