

OUR MODEL TO BUILD PRESENT FOR THE FUTURE

Nature, Innovation, Sustainability, and Community in Action

We integrate conservation, partnerships, and innovation to transform realities and scale sustainable solutions from Ecuador.

OUR MODEL

Four pillars of action integrated as a living, flexible, and replicable system.

CONSERVATION AND RESTORATION

We protect and restore key ecosystems through direct management and strategic and community partnerships.

5,820.02 hectares protected and restored in the Chocó Andino.

3,237.02 hectares under direct management (Mashpi-Tayra and Mashpi Protected Forest).

2,583 hectares protected and restored through sustainable practices and Conservation Agreements.

SUSTAINABLE LANDSCAPE

We promote a **harmonious relationship between communities and their natural environment by strengthening sustainable livelihoods, territorial governance, and access to opportunities.** Our model is rooted in a regenerative vision where production, conservation, and well-being coexist.

SUSTAINABILITY CULTURE

We guide **Grupo Futuro companies** in their journey toward responsible operations aligned with today's challenges.

INNOVATIVE FINANCING MECHANISMS

We mobilize resources to scale impactful solutions through global contributions, contributions from Grupo Futuro and its companies, government funding, and innovative mechanisms such as NFTree.

OUR WORK

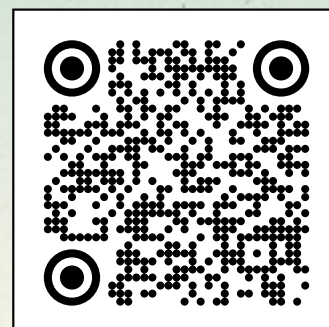

At Fundación Futuro, we work to care for life in all its forms. Our approach combines innovation, local knowledge, and cross-sector partnerships to generate lasting impact on people, communities, ecosystems, and the economy.

OUR IMPACT MODEL

We transform investment into real impact through a transparent value chain, where collaboration with host communities is key to achieving regenerative outcomes.

Learn more about our impacts.

Our model creates real, measurable impacts. This is not a promise—it is a solution already underway.

OUR GOAL

500,000 HECTÁREAS our 10-year conservation goal, with USD 25 million already secured through the Chocó Andes Network.

NUESTROS IMPACTOS

- 1 (DAOs) CREATED** a Decentralized Autonomous Organization operating with an innovative blockchain-based model.
- 24 NEW SPECIES** described for science in our Mashpi-Tayra Reserve.
- 109,481 tCO₂e SINCE 2019** neutralizing 100% of Grupo Futuro's emissions.
- 10 COMPANIES TRANSFORMING** their culture toward Corporate Sustainability (1 B Corp Certified, 9 in progress).
- USD 5 MILLION INVESTED** by Grupo Futuro and its companies since 2019, equivalent to 3% of their net profits.
- 72 FAMILIES** with new income through productive solutions and 9 products with health permits secured.
- 300+ STUDENTS** benefiting annually across 5 schools.
- 51 COMMUNITY GUIDES** trained and professionalized locally.
- 50 YOUNG PEOPLE AND ADULTS** enrolled in our motorcycle mechanics specialization program.
