Coquitlam, BC, Canada

## Profile

Motivated and reliable designer with an outgoing and confident demeanor, seeking an immersive role in the gaming industry as a Game Designer. An ambitious and dedicated employee who thrives on new creative opportunities and is eager to learn.

## Experience

### Rindu - Lead Designer

Isometric Hack 'N' Slash / Team Project

- Led a team of 6 designers to create immersive gameplay environments and memorable in-game experiences.
- **Composed documents** outlining concepts, style, narrative, game flow charts and overall content to help artists and designers create deliverables.
- **Communicated with art, production and programming teams** to design game elements and optimize quality for better player experiences.

### Pick A - Game Developer

Survival RPG / Solo Project

- **Coordinated task management** and applied strict deadlines to effectively manage time and resources.
- **Designed and documented** concept art, narrative, game flow charts and UI of the game.
- Implemented and balanced gameplay mechanics, game levels and interactive elements.

### City Lights - Lead Designer

VR Simulation / Team Project

- Established clear goals, prioritized tasks, and monitored progress regularly.
- Provided regular updates on project status to higher-ups at Liminal VR, maintaining transparency throughout the development process.
