WELCOME FALL MUG RUG

Supplies:

5X7 Hoop

Cutaway Stabilizer

Batting

9x7 fabric for sand fabric,

The folded fabric for the back envelope is approximately 9x9, folded in half.

Hoop your cutaway stabilizer and stitch the placement line for the batting. Stitch the tack down for the batting..

Place your fabric on the hoop and stitch the tack down stitches.

This mug rug has no other applique, so you can enjoy picking out fall colours for the designs.

ENVELOPE BACKING

The last step is to add the envelope backing. Fold each piece in half, right sides out and place them down on the top of the flower, fold towards the middle. Make sure that you have a seam allowance on the top, bottom and side. Next do the same with the second piece of backing fabric, making sure of the seam allowance AND that there is an overlap at the fold for each panel.

Stitch the tack-down stitches and take everything out of the hoop.

Trim around the entire mug rug, leaving a small seam allowance and clipping the corners.

Turn the mug rug inside out and carefully poke out the corners.

Done!

Happy Stitching!!!
