WinThruster detects and repairs invalid registry references with one click, fixing PC issues and improving program load times. It removes clutter and extends the computer's lifespan. The software restores performance, eliminates desktop clutter, and resolves freezing or slow app openings. WinThruster ensures safety with a backup of the registry and offers automatic repair scheduling. It also provides an easy startup program manager to manage programs loading at startup. With WinThruster, users can extend their PC's lifespan by up to 40 USD per year. WinThruster is available in three versions: WinThruster, Pro, and Pro + PC Cleaner. To get started, visit the Solvusoft website and select "Software" followed by "WinThruster". Users can choose a version, enter payment information, and complete the purchase. Alternatively, users can earn free WinThruster license keys through survey programs such as Survey Junkie, Swagbucks, and LifePoints. By completing surveys and sharing opinions, users can instantly receive rewards in the form of PayPal cash or gift cards. WinThruster serial numbers are available on a first-come, first-served basis, and users should activate them before others do. If a key does not work, users can try entering a different one from the list above. The list will be updated frequently with more free WinThruster keys for 1 year. WinThruster offers a paid version that costs up to \$40 USD per year, but users can obtain it for free by signing up for survey programs like Survey Junkie, LifePoints, and Swagbucks. These platforms reward users with points or cash for completing surveys, watching videos, or shopping online. Redeemable points can be exchanged for gift cards or PayPal credits to purchase WinThruster.
