OUTBOUND FRAMEWORK (2026)

The 5-Signal System

- Website traffic & tech stack
- Buyer persona presence
- Intent triggers (hires, reviews, ad spend)
- Partner ecosystem overlap
- Market timing / funding

Score → Enrich → Outreach → Learn → Iterate

OUTBOUND SKILLS (2026)

Soft Skills
- System Thinking

ROLES IN AN OUTBOUND TEAM

1. Strategy & ICP Design
2. Data Research & Enrichment
3. Copy & Personalization
4. Campaign Setup (Email + LinkedIn + Calls)
5. Reply Routing & Handover
6. Reporting & Optimization

COMMON OUTBOUND PROBLEMS (AND FIXES)

Problem #1
"Reply rates are low."
Fix: Add context — layer intent signals, social data, or trigger-based outreach.

Problem #2
"We don't know what's working."
Fix: Increase experimentation velocity. Each new test = data to learn from.

Problem #3
"Too much manual work."
Fix: Automate enrichment, list cleaning, and scoring before campaign launch.

Problem #4
"CRM is a mess."
Fix: hygiene audits; enrich + score + reassign contacts via automated workflows.
