Self-certification form to establish foreign (tax) status

Registration of entity data

Based on the CRS and the IGA which is concluded for FATCA purposes, Netherlands law requires financial institutions to collect and review information to identify the tax residence or multiple tax residences (if any) of entities and/or controlling persons. As a financial institution we therefore have to ask you several questions. If an entity and/or any of its controlling persons is a U.S. person, or if the tax residence / residences of entities and/or controlling persons are outside the Netherlands in a participating country, we are legally bound to report the data of the entities and/or controlling persons to the Netherlands Tax and Customs Administration. They will report the data to the tax authorities of each relevant participating country and/or the United States. For further information, for example about the participating countries, we refer to www.belastingdienst.nl.

Authorized | An authorized representative is authorized to sign statements or conclude contracts on behalf of the entity. Then the authorized representative will also be registered with the Chamber of Commerce. You will find this on the Chamber of Commerce extract.

Central bank | This means an institution that is by law or government sanction the principal authority, other than the government of the country itself, issuing instruments intended to circulate as currency. Such an institution may include an instrumentality that is separate from the government of the country, whether or not owned in whole or in part by the country.

Certified deemed-compliant FFI | A certified deemed-compliant FFI is a financial institution which must comply with the FATCA regulations. However, this institution does not have to register with the United States tax authorities (IRS) to receive a GIIN. Instead it certifies to other financial institutions that it is compliant with the requirements of a certified deemed-compliant FFI according to FATCA. This also applies to institutions that have been included as deemed-compliant financial institutions in Annex II of any IGA.

FATCA contains four categories of certified deemed-compliant FFIs:

- 1 certified deemed-compliant non-registering local bank;
- 2 certified deemed-compliant FFI with only low value accounts;
- 3 certified deemed-compliant sponsored, closely held investment vehicle;
- 4 certified deemed-compliant limited life debt investment company.

If you are uncertain whether the entity could qualify for a certified deemed-compliant FFI status, please consult a tax advisor.

The above-mentioned description of a controlling person is derived from article 3, paragraph 4, subsection b of the Netherlands law, the Wwft (Wet ter voorkoming van witwassen en financieren van terrorisme). Please find the Wwft on wetten.overheid.nl.

An entity holds financial assets for the account of others as a substantial portion of its business if the entity's gross income attributable to the holding of financial assets and related financial services equals or exceeds 20% of the entity's gross income during the shorter of:
 - three years prior to the current year;
 - the period since the establishment of the entity.
- 2 **Depository institution:** an entity that accepts deposits in the ordinary course of a banking or similar business. For example, a bank or a financial lease company.
- 3a **Investment entity:** an entity that primarily conducts as a business one or more of the following activities or operations for or on behalf of a customer:
 - trading in money market instruments (cheques, bills, certificates of deposit, derivatives, etc.); foreign exchange; exchange, interest rate and index instruments; transferable securities; or commodity futures trading;

IGA | An IGA is an intergovernmental agreement with the United States to facilitate compliance with the [FATCA](#) rules.

International organization | This means any international organization or wholly owned agency or instrumentality thereof. This category includes any intergovernmental organization (including a supranational organization) (1) that is comprised primarily of governments; (2) that has in effect a headquarters or substantially similar agreement with the country; and (3) the income of which does not inure to the benefit of private persons.

Non-participating FFI | Any Financial Institution that is located in an IGA jurisdiction generally cannot be a non-participating FFI. Only if the FFI has received notification of the fact that it is a Non-Participating FFI, this would be different. Such notifications will only apply from 2017, at the earliest. In all other situations, an FFI in an IGA jurisdiction does participate according to the FATCA regulations, is certified deemed-compliant, or an exempt beneficial owner.

The term non-participating FFI means a financial institution other than:

- a financial institution that is participating according to FATCA regulations;

- the entity has no shareholders or members who have a proprietary or beneficial interest in the income or assets of the entity;
- the applicable laws of the entity's country of residence or the entity's formation documents do not permit any income or assets of the entity to be distributed to, or applied for the benefit of, a private person or non-charitable entity. An exception is made for income or assets used:
 - pursuant to the conduct of the entity's charitable activities,
 - as payment of reasonable compensation for services rendered, or
 - as payment representing the fair market value of property which the entity has purchased.
- the applicable laws of the entity's country of residence or the entity's formation documents require that upon the entity's liquidation or dissolution, all of its assets be distributed to a governmental entity or other non-profit organization.

In cases where the entity is an Algemeen Nut Beogende Instelling (ANBI) or Sociaal Belang Behartigende Instelling (SBBi) according to the Netherlands Tax and Customs Administration, the entity will be considered a non-profit organization.

If you are uncertain whether the entity is a non-profit organization, please consult a tax advisor.

Qualified intermediary | A qualified intermediary is an entity that has a QI agreement with the U.S. tax authorities.

Regularly traded on one or more established securities markets

An entity is considered to be regularly traded on one or more established securities markets if a meaningful volume of the stock of the entity is regularly traded on an established securities market.

Established securities market

An established securities market/recognized stock exchange is a stock exchange which is officially recognized or ratified by a government institution of the country in which the stock exchange is incorporated. The stock exchange should be under the supervision of this governmental body. A stock exchange is considered established if a meaningful quantity of stock is being traded annually.

Regularly traded stock

Stock is considered regularly traded on a stock exchange if there is a continuously meaningful volume of trade in this stock. However, there is an exception to this rule: an interest (share, stock etc.) in a financial institution is not considered regularly traded if the holder of the interest (other than a financial institution that acts as an intermediary) is registered in the accounts of this financial institution.

Entities

When is an entity considered to be tax resident in the Netherlands? An entity is tax resident in the Netherlands if its place of effective management is in the Netherlands. Furthermore, an entity that is incorporated under Netherlands law is supposed to be tax resident in the Netherlands, unless the entity has its place of effective management in a country that has concluded a tax convention with the Netherlands.

The main facts and circumstances that determine whether the place of effective management is in the Netherlands are:

- the place where the important business decisions are made; and
- the place where the directors work and meet; and
- the place where the business records are kept and the financial statements are prepared.

Legal arrangements and tax residency

An entity such as a legal arrangement, that has no residence for tax purposes (transparent entity) is tax resident for CRS and FATCA purposes in the jurisdiction in which its place of effective management is located. If there is no place of effective management, the address of its principal office can serve as a proxy for determining residence. Please note therefore that the residence for CRS and FATCA purposes may differ from the residence for other purposes (income tax, treaty application, etc.).

Branches of entities

The tax residence of the branch of an entity is only in the country of tax residence of the entity to which the branch belongs. It is not necessary to list all countries in which the entity maintains branches.
