

JIM LAWLER

UX & Product Design Leader | UI/UX Art Direction | Live Service Games

slothjaer.com | LinkedIn | 617.877.2795 | jlawler@slothjaer.com

Professional Summary

Product design leader with nearly 20 years of experience shipping live service games played by millions worldwide. At WB Games Boston, led UX and UI art direction across titles including *Game of Thrones: Conquest*, a top-grossing mobile strategy game that generated over \$1 billion in revenue, surpassed 20 million downloads, and spent 100+ cumulative weeks on the App Store Top 25. Proven ability to bridge creative vision and technical execution, build and mentor high-performing design teams, and deliver systems that drive long-term player engagement and revenue.

Professional Experience

Eighth Lantern Studios

UI Artist

March 2026 – Present

- Established UI layout and art style for an unannounced title at an indie studio founded by AAA veterans, defining the visual language for the game's interface from the ground up
- Designed screen layouts and UI component frameworks to support core gameplay systems, balancing clarity and immersion within a tight, remote-first team environment
- Developed UI art style guidelines in collaboration with the Art Director, ensuring visual consistency across menus, HUD, and in-game screens

WB Games Boston

UI/UX Art Manager

2011 – 2025

- Led UI/UX design and art direction for *Game of Thrones: Conquest*, a top-grossing mobile strategy game that generated over \$1 billion in revenue, surpassed 20 million downloads, and spent 100+ cumulative weeks on the App Store Top 25.
 - Led UX Design and UI art for the Dragon system, one of the most ambitious features in GoTC's live service history. Owned the full pipeline from wireframes and prototype through high-fidelity mockups, then collaborated with technical artists and engineers to ship the system in Unity. Dragons introduced an entirely new progression layer built around a feeding mechanic, multiple skill trees, and deep cosmetic customization, and required full integration across every existing combat mechanic in the game, including march screens and battle reports.
 - Led UI art for the Heroes system, one of the largest features ever added to GoTC, owning the visual style and production pipeline for Hero Cards at three levels of detail (icon, stat view, and feature view) and collaborating across the UX and live events teams to ensure deep gameplay remained approachable for all player types.
- Contributed UI/UX direction to *Dungeons & Dragons Online* across 29 updates and two expansion packs: *Menace of the Underdark* and *Shadonfell Conspiracy*.
- Contributed UI/UX direction to *The Lord of the Rings Online* across 19 updates and five expansion packs: *Mines of Moria*, *Siege of Mirkwood*, *Rise of Isengard*, *Riders of Rohan*, and *Helm's Deep*.
- Managed dedicated and shared-service design teams across multiple simultaneous titles, establishing scalable design systems and mentoring team members to ensure cohesive, high-quality user experiences.
- Collaborated cross-functionally with engineers, product managers, game designers, and producers to define and execute on product design strategy.

Lead Artist, User Interface

2009 – 2011

- Expanded leadership scope to include the Visual Effects team in addition to UI, coordinating across disciplines to maintain visual integrity and optimize production pipelines.
- Guided creative execution across several live projects, establishing consistent standards for UI art and visual effects.

Senior UI Artist

2006 – 2009

- Blended graphic design, illustration, and information architecture to build engaging, user-friendly interfaces for MMO titles.

- Helped shape scalable UI systems that elevated the player experience and laid the foundation for future design team growth.

Additional Experience

Design Technologist, Affinova

Developed interactive, data-driven tools to support product testing and optimization for clients including Procter & Gamble, General Mills, and Merck.

Interactive Designer, Independent Contractor

Created online experiences for Energy Credit Union and Premier Source Credit Union.

Senior Multimedia Designer, Bit Group

Produced multimedia and web solutions for clients including Cisco Systems and Senator Bill Bradley's 2000 Presidential Campaign.
