

*Don't wait until it
happens to you.*

Maybe you used a credit card on an insecure website or clicked on a text or email link you shouldn't have. Or perhaps you did nothing of the sort – and yet a data breach elsewhere put your private information directly into the hands of criminals.

The next thing you know, accounts have been opened in your name and you are being held responsible for payment.

Now you face countless hours of dealing with banks, credit bureaus, credit card companies, police, postal service, DMV, and more.

Even if your financial institution can recoup the stolen funds, you're left scrambling to salvage your good name and restore your credit rating.

Peace of mind with

IDENTITY THEFT
PROTECTION

Reclaim your identity and restore your credit.

While there are many services promising to help prevent your info from being stolen in the first place, once fraud has occurred, you're typically on your own.

This is where identity theft protection comes in.

We assist in the aftermath of identity theft – and cover expenses associated with reclaiming your financial identity and repairing your credit rating.

With Florida Peninsula's identity theft protection, you'll get:

- Thorough damage assessment
- A consumer fraud specialist who works with your creditors
- Up to \$25,000 in reimbursed expenses, including attorney's fees, lost wages, and more
- Managed repair and monitoring of credit
- Credit restored to pre-fraud condition
