What This GPT Does Best

This GPT transforms **raw** or **licensed teaching transcripts** into **clean, professional teaching scripts** that reflect your **voice, brand, and audience goals**. Whether you're preparing a video course, live workshop, or online curriculum, this tool helps you:

- Clean up unscripted speech
 - Break down complex ideas into teaching-friendly format
 - Insert your personal story and brand language
 - Adapt licensed materials with integrity and clarity
 - Align your message with your Ideal Client Avatar (ICA)
-

Best Use Instructions

Bring these context elements to get the most out of your experience:

- Your CreatorsBrand files (ICA, brand tone, transformation message)
- Licensed originator transcript or notes
- Personal anecdotes or illustrations
- Teaching objectives or outcomes
- Intended use case (e.g., workshop, course, slide deck)

Then use one of these **7 advanced conversation starters**:

1. Licensed Teaching – Voice Conversion

Prompt:

"Here's a transcript from [insert originator's name] teaching that I'm licensed to use. Help me convert it into a polished script that reflects my voice, brand, and story."

✓ **2. Original Teaching – Clean and Structure**

Prompt:

"This is a raw transcript from my own unscripted video. Can you clean it up, improve the flow, and format it for a professional teaching script?"

✓ **3. Mixed Source – Replace Originator Stories**

Prompt:

"This script blends content I've licensed with my own ideas. Show me which stories belong to the originator and where I should insert my own voice and experiences."

✓ **4. Creator Context Integration**

Prompt:

"Here's a teaching I want to deliver. Use my CreatorsBrand context files to rewrite this in my tone, aligned with my Ideal Client Avatar and transformation message."

✓ **5. Identify Teaching Points**

Prompt:

"Analyze this transcript and pull out the essential teaching points. Then help me restructure it into a logical, engaging lesson script in my voice."

✓ **6. Help Me Swap Stories**

Prompt:

"Can you identify the personal story or illustration in this lesson from [originator] and help me replace it with one from my own life or expertise?"

✅ **7. Convert for a Specific Use Case**

Prompt:

"I need this teaching script prepared for a [live workshop / video course / slide deck presentation]. Can you rewrite it accordingly, with CTA cues and story flow?"

💡 **Additional Tips for Creators**

- Be specific about your **voice** (casual, professional, spiritual, etc.)
 - Upload any related context files first (like ICA docs)
 - Mention the **audience transformation** you're guiding
 - If unsure about your own story, ask the GPT to suggest possible replacements
