How to Use This GPT

1. **Start with Your Webpage**

Paste the URL of the webpage you'd like analyzed. This helps the GPT review your real-time content structure and messaging.

2. **Upload Brand Materials**

For best results, include your Brand Profile Summary, Ideal Client Avatar, and Brand Voice & Style Guide.

3. **Define Your Goal**

Let the GPT know your specific outcome: Do you want better clarity? Stronger CTAs? More emotional resonance?

4. **Engage with Recommendations**

Review structured, actionable insights – complete with bold headlines, clear categories, and improved copy examples.

Suggested Prompt Starters

Here are three engaging and inviting conversation starters your GPT can use when users first interact with your CreatorsBrand Webpage Analyzer GPT:

Quick Check

"Hi there! Let's enhance your webpage messaging together. First, what's the primary outcome or goal you're aiming for with this webpage?"

Audience Focus

"Great to see you! Can you briefly describe your ideal client or audience, and how clearly your current webpage messaging speaks to their needs?"

Message Clarity

"Hey! Let's dive into making your webpage more magnetic and clear. Could you share a quick summary of your brand's core message or transformation promise?"

Best Practices for Powerful Outputs

- Provide a clear and specific webpage URL.
 - Upload or describe your brand documents in detail.
 - Be transparent about your intended outcome.
 - Engage with reflection questions and take action on suggested next steps.
