

Zygomatic Master Course

Level 2 — practice, and nothing but

Two days to sharpen your surgical precision and strengthen your safety margins. A theoretical review and commentated clinical videos, hands-on practice on models to embed the movement, then work on cadaver specimens to reproduce it under near-real conditions. The course closes with a dissection of the midface.

DATES**March 25–26, 2027****FORMAT****12 participants****FACULTY****Sepehr Zarrine**

Sophie Veyre

FEE**€3,600****DAY ONE****08:30 – 17:30**

Boscolo Hotel Lyon & Spa · 11 quai Jules Courmont, 69002 Lyon

MORNING**08:30 – 12:00****08:30** Welcome**09:00** Theory and commentated clinical videos**01**

Indications for zygomatic implants

02

The new zygomatic classification, and the surgical technique suited to each situation

03

Surgical stages

04

Recorded Quad Zygoma, broadcast under live conditions with running commentary

AFTERNOON**13:30 – 17:30**

Hands-on session on models

How to avoid complications

Prosthetic stages: from planning to immediate loading, through to the definitive prosthesis

END OF DAY ONE · 17:30**HANDS-ON PRACTICE**

The specimens are full bodies, with exceptional tissue preservation. One specimen per two practitioners, in the dissection room of the Faculté de Médecine Lyon Est.

DAY TWO

08:30 – 17:30

Anatomy laboratory, Faculté de Médecine Lyon Est · 8 avenue Rockefeller, 69373 Lyon

MORNING · ANATOMY LABORATORY

08:30 – 12:00

Anatomy of the midface — Sophie Veyre

Recorded Quad Zygoma, broadcast under live conditions with running commentary

AFTERNOON · DISSECTION ROOM

12:30 – 17:30

END OF DAY TWO · 17:30

EDUCATIONAL OBJECTIVES

Understand the new anatomical classification and its impact on surgical planning.

Deepen your knowledge of surgical techniques suited to different anatomical scenarios, while building your anatomical skills.

Apply these techniques through hands-on practice on models and then on cadaver specimens, to maximize success while minimizing the risk of complications.

Master the prosthetic workflow, from immediate loading to the final prosthesis, and integrate the digital workflow.

PRACTICAL INFORMATION

WHO IT IS FOR

Dentists, oral and maxillofacial surgeons with at least five years' practice in implantology, familiar with immediate loading and full-arch protocols.

WHERE

Day 1 — Boscolo Hotel Lyon & Spa, 11 quai Jules Courmont, 69002 Lyon.

Day 2 — Anatomy laboratory, Faculté de Médecine Lyon Est, 8 avenue Rockefeller, 69373 Lyon.

WHAT YOU LEAVE WITH

A certificate of attendance, and a certificate of successful completion following assessment by the trainer (practical work and a multiple-choice test).
