

**SIVA MODUGA**

Co-Founder & Chief Executive Officer

Siva stands at the helm of Supervity as its visionary Co-Founder and Chief Executive Officer, steering the company's strategic direction with a particular focus on its technological trajectory. With a rich professional background spanning over two decades, Siva is recognized as a technology virtuoso, whose expertise injects a solid foundation of knowledge and innovation into this vibrant and burgeoning AI startup. His role is pivotal in anchoring the company's ambitions, guiding it through the complexities of the AI industry with adept leadership and a forward-thinking approach to technology development.

Before embarking on his entrepreneurial journey, Siva honed his skills in the domain of information security at The World Bank, where he served as an Information Security Architect. This role not only accentuated his proficiency in safeguarding information assets but also offered him a global perspective on the challenges and responsibilities tied to technology governance. Following this, Siva contributed significantly to the IEEE, the world's largest technical professional organization dedicated to advancing technology for the betterment of humanity. His tenure at IEEE, spanning almost a decade, underscores his commitment to the technological community and his passion for leveraging technology as a force for good. Siva began his career with Capgemini and views his two-year stint there as crucial to his learning.

On the academic front, Siva is a distinguished alumnus with a Bachelor of Engineering degree in Computer Science, further enriched by a Master's degree from McNeese State University.
