ABOUT

THE STUDIO

TXTURED is a luxury design studio offering bespoke interiors for residential and commercial clients in the UK and internationally. Our design process draws on all the senses using light, texture, sound and scent to create elevated spaces that tell a unique story.

Our design process is collaborative, we listen to our clients to ensure clarity, confidence, and inspired direction.

Working with first class architects, developers, and creative partners, we ensure every project is grounded in quality and intention.

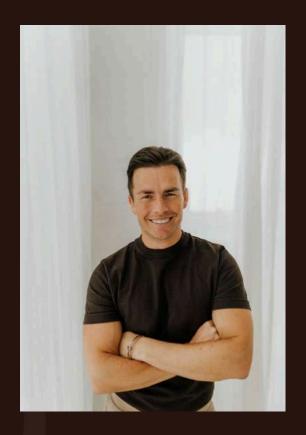

"Simon's eye for design and colour is impeccable. It is artsy, chic, elegant and elevated. There are times where I struggled to envision the space on paper and wanted to see other options but was always so glad that I went with Simon's choice in the end. It was always better!" — ANASTASIA G

### THE TEAM

OUR DESIGNERS

"What stood out to me the most was Simon's impeccable attention to detail, his patience and openness to feedback and his ability to work within budget without sacrificing quality."

KATHERINE HU

Simon Mayhew FOUNDER/INTERIOR DESIGNER

Simon came into interior design, direct from London's west end as a dancer and from his earliest memories, Simon was captivated by the interiors of stunning homes, hotels, bars, and restaurants. Whenever he stepped into these spaces, he was drawn to the intricate details, the textures, and the play of light and shadow. He now heads up the studio creating chic and creative spaces across the UK.

Max Coe

Since a young age, Max has always been drawn to transforming interior spaces and how we can reimagine them. With a BA in Architecture and Interior Design degree, Max has grown a deep appreciation for how thoughtfully designed spaces can shape mood, behaviour, and overall well-being.

### **OUR SERVICES**

### ARCHITECRUAL DESIGN

TXTURED works with architects on new builds and large-scale renovations, either alongside your chosen team or with our own trusted partners. We focus on proportion, light, and materiality to ensure every detail supports the character of the space and how it's lived in, from heritage conversions to contemporary homes.

### FF+E DESIGN AND PROCUREMENT

We offer a full FF&E service from sourcing, curating, and delivering everything from furniture and lighting to textiles and accessories. Our team manages procurement, budgets, and logistics to ensure the design is executed exactly as intended.

### INTERIOR DESIGN

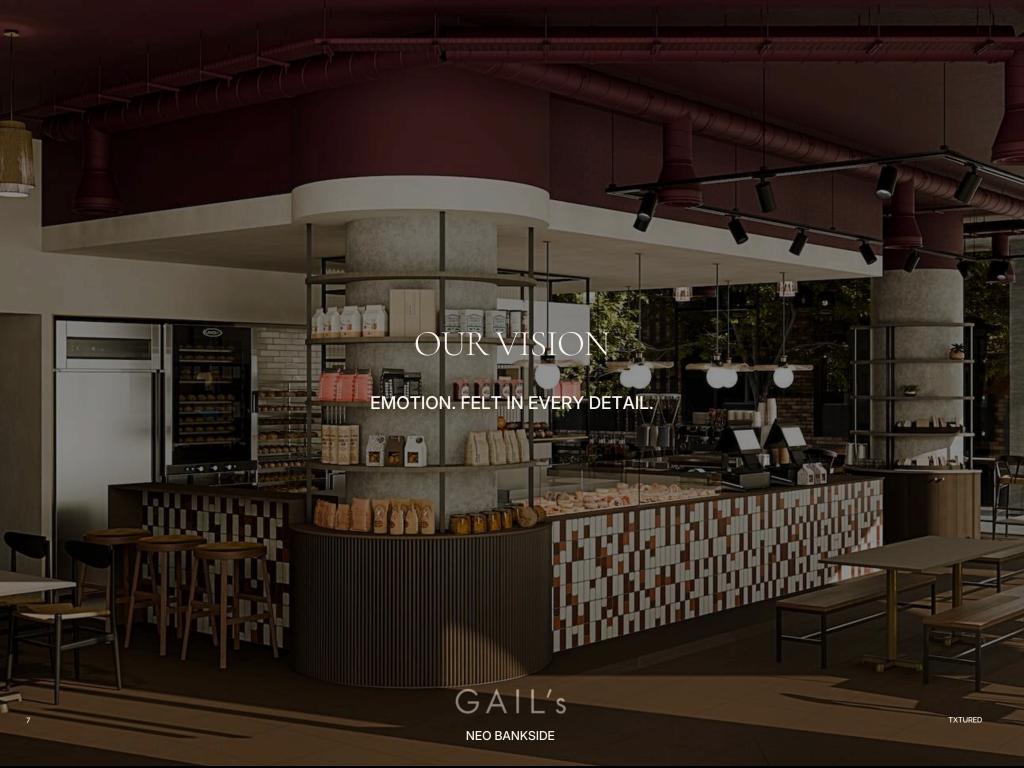

TXTURED offers full interior design services for high-end homes and boutique hospitality spaces. We manage everything from concept and layout to sourcing and styling, with a focus on texture, flow, light, and atmosphere throughout.

### **DELIVERY AND INSTALLATION**

At the final stage, we manage all deliveries and installations – from bespoke joinery to accessories. Our team coordinates schedules and onsite styling to ensure everything arrives on time and is seamlessly installed.

S TXTURED

# THE BRAND TXTURED'S brand values are encapsulated by unique symbols spelling out TXTURED, each symbol represents a core value which defines our brand

While TXTURED's style is timeless, curiosity keeps us evolving. We explore new suppliers, vintage finds, and creative ideas constantly and we bring this energy into every brief, ensuring each project is unique.

# Timeless

# SCENT

### WHATS THE FIRST THING YOU NOTICE IN ANY SPACE?

At TXTURED, we think deeply about how a space feels, not just how it looks. Our design process goes beyond furniture placement, we carefully think about all of the senses to enhance any space.

SCENT: Carefully curating fragrances to enhance atmosphere, uniquely matched to each interior.

LIGHT: Thoughtfully layering lighting to shape mood and ambience of the space.

SOUND: Considering acoustics to ensure spaces feel comfortable, calm, and balanced.

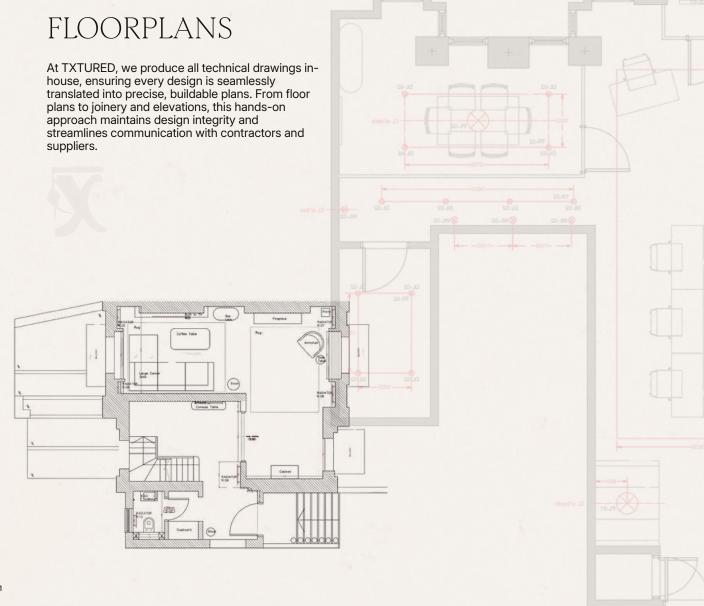

TEXTURE: Selecting textures and finishes that invite interaction, comfort, and connection.

### TIMELESS DESIGN

STORY TELLING IN EVERY SPACE

## TECHNICAL DRAWINGS & CGI's

### BESPOKE BAR

Introducing an example of elevation drawings, offering detailed views of a bar from a recent project. We use AutoCAD, SketchUp, and rendering software to help clients visualise the final design.

These drawings provide valuable insights into the layout, showcasing the placement of each element, from cabinets to countertops.

### HEAVEN TREE

In our Heaven Tree project, we set out to create a living room that balances sophistication with playfulness. The deep burgundy palette evokes warmth and indulgence, while playful textures in the cushions and a tactile rug bring a sense of personality and charm.

Layered materials, from plush velvets to sleek metals, create a space that feels luxurious yet relaxed. The deep hues are complemented by lighter accents, adding depth and interest without overpowering the room.

This living space perfectly captures TXTURED's ethos: a blend of character and elegance, where rich colour meets comfort for a space that's as inviting as it is refined.

- KATHERINE HU

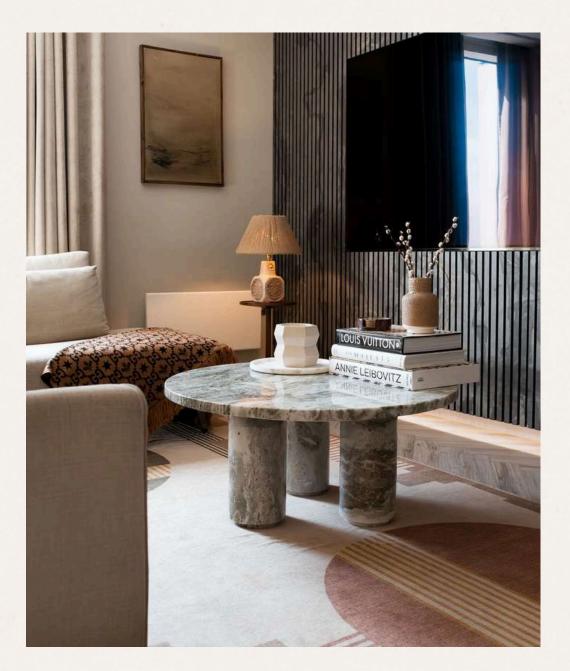

### THE PENTHOUSE

In our award winning modern penthouse project, we infused warmth and character by layering natural stones and richly grained woods.

Each material was chosen to breathe life into the space, from the beautifully veined marble coffee table to the textured timber wall details. The result is a sophisticated yet inviting home that balances contemporary luxury with a soulful touch, an embodiment of TXTURED's ethos.

GAILS / Neo Bankside

TXTURED creates thoughtful, characterful interiors for boutique hospitality spaces, creative work environments, and high-end commercial developments.

### **OUR PROCESS**

While every project is unique, our commercial design process typically follows these five stages:

- 1. BRIEF & DISCOVERY
- 2. CONCEPT DESIGN
- 3. DESIGN DEVELOPMENT
- 4. PROCUREMENT SUPPORT & COORDINATION
- 5. INSTALLATION & STYLING

Concierge Space, Manchester

Studio founder Simon came from the world of theatre, a background that deeply shapes how TXTURED approaches interior design. Just as the best restaurants are often treated like stages, with lighting and flow creating energy and emotion, Simon brings that same mindset to every project.

He understands how to build drama into a space, and how to choreograph mood from day into night. Light, movement, and atmosphere aren't afterthoughts, they're the foundation. It's this unique outlook that makes TXTURED different.

We Let Properties, Manchester

### NEO BANKSIDE

For this bakery project, we reimagined the space with a focus on sustainability and flow. Updated floor plans ensured smoother customer movement, while natural materials reflected the bakery's ethos of using high-quality, organic ingredients.

Inspired by the shapes and tones of coffee beans, we introduced a deep plum ceiling and a custom counter with curved forms, echoing the natural essence of the food. Terracotta and cream tiles added playful texture, while soft lighting and natural wood created a welcoming, characterful space.

This project embodies TXTURED's ethos of thoughtful, sustainable design, where every detail reflects the brand's commitment to quality and care.

### WE LET PROPERTIES

For this flagship HQ in Manchester, we reimagined the space to feel both homely and practical. The layout was thoughtfully zoned to maximise flow and functionality, ensuring a welcoming yet efficient environment.

Inspired by the vibrant spirit of the Northern Quarter, we introduced a bold red "Northern Quarter Red", which tied into the brand's Manchester roots and reinforced their visual identity. Natural wood textures and warm lighting softened the space, creating an inviting atmosphere that balances professionalism with comfort.
