High-end residential and boutique commercial interior design

“Every space has a story... Let us tell yours”

THE STUDIO

TXTURED is a full-service interior design studio working across high-end residential and boutique commercial projects.

Design and delivery sit under one studio. We lead projects from concept through to completion, working closely with private clients, architects, developers, and specialist partners to ensure clarity and control throughout.

Our work centres on considered layouts, layered materials, and a refined sense of atmosphere. Each project is approached with restraint and intent. Transitional Design sits at the core, where traditional details meet a modern edge.

THE TEAM

OUR DESIGNERS

Simon Mayhew
FOUNDER/CREATIVE DIRECTOR

Simon came into interior design, direct from London's west end as a dancer and from his earliest memories, Simon was captivated by the interiors of stunning homes, hotels, bars, and restaurants. Whenever he stepped into these spaces, he was drawn to the intricate details, the textures, and the play of light and shadow. He now heads up the studio creating chic and creative spaces across the UK.

Max Coe
INTERIOR DESIGNER & TECHNICAL LEAD

Since a young age, Max has always been drawn to transforming interior spaces and how we can reimagine them. With a BA in Architecture and Interior Design degree, Max has grown a deep appreciation for how thoughtfully designed spaces can shape mood, behaviour, and overall well-being. Max loves working with different materials and bringing them to life in 3D visuals.

Nikita McConnell
JUNIOR INTERIOR DESIGNER

Ever since she can remember, Nikita has loved design. She pursued this further through Interior Design at university and discovered her passion for transforming spaces through lighting, fabrics, and intentional space planning. She focuses on creating human-centred spaces that improve people's lives, balancing functionality and beauty. The best interiors have a story to tell.

RESIDENTIAL DESIGN

London Townhouse

HEAVEN TREE

For Heaven Tree, TXTURED designed a refined home rooted in warmth, balance, and longevity. The brief focused on creating spaces which feel calm and cohesive, while still carrying character and depth.

Arched thresholds, layered textures, and considered joinery guide movement through the home and soften transitions between rooms. The layout supports daily living while allowing moments of pause and visual interest.

THE PENTHOUSE

In our award winning modern penthouse project, we infused warmth and character by layering natural stones and richly grained woods.

Each material was chosen to breathe life into the space, from the beautifully veined marble coffee table to the textured timber wall details. The result is a sophisticated yet inviting home that balances contemporary luxury with a soulful touch, an embodiment of TXTURED's ethos.

COMMERCIAL DESIGN

GAILS Bakery, London

Amenity Space, Manchester

WE LET PROPERTIES

For this flagship HQ in Manchester, TXTURED reshaped the space to support clarity, flow, and daily performance. The layout was carefully zoned to balance focus, collaboration, and client experience.

Material choices and lighting bring warmth and ease, creating a workplace that feels calm, confident, and considered.
