melos.stylemaker.app

The Stylemaker® is a browser-compatible web app, designed for use on a desktop PC, laptop or tablet and can be accessed directly through the URL.

Gain an advantage in your pitches and sales talks. The creativity of Stylemaker is sure to impress your customers. So, what are you waiting for?

Stylemaker®— start now!

Creative floor images
in three steps!

1.

After logging into your account, open the web app and select your motif — place it in the area and combine it flexibly with others. Choose from a great selection of motifs! The Stylemaker® supports creativity. Users can edit, save, and discard motifs all within the app.

2.

Customise motifs — change sizes, play with colours and zoom in closely.

Dolphins in red, green or blue? Why not! It's all about imagination with Stylemaker®. Motifs are displayed in full-screen mode — and optimized step-by-step with finer details. 3D effects help with the design and also give clients a great sense of satisfaction.

3.

Really easy to order — the delivery comes in a complete, ready-to-install package.

The Stylemaker® calculates costs and supply quantities for granules and polyurethane binders. The whole package is ordered directly in the app — our Stylemaker® production partner will contact you regarding the offer and the next steps. When the production is finished, a ready-to-install floor motif is delivered. Simply place it and attach the background.

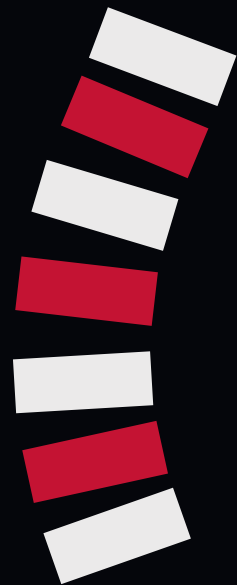

Whether underwater worlds, bobby car racetracks, floor games or futuristic designs – create top-class fall-protection surface areas that everyone will love with Stylemaker®.

■ ORIGINAL 2D

Bring the fun to the floor.

Stylemaker® Original 2D

Stylemaker® elevates the design of individual floor images to a new level with unprecedented creativity. Simply select your motif, adjust the sizes and colors, then place your order. It's that simple. You receive a finished floor image, ready to install in the intended area. Now, you can create entire themed worlds to your next project.

**Innovative technologies:
This is how Melos creates the
Stylemaker® floor images**

Melos relies on a high-performance waterjet process with the individual floor image elements precisely cut out from EPDM plates.

Send us your desired motif:

We love vector formats (.ai .eps .svg)
Graphic formats are also welcome (.png .jpg)

Note: Maximum file size is 50 MB.

STYLEMAKER® INDIVIDUAL

Individual motifs as a floor image.

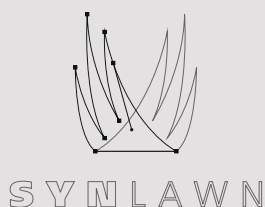

Design your own one-of-a-kind floor image with Stylemaker Individual. Stylemaker® makes it possible.

With Stylemaker® Individual, you can make the entrance area of your club premises stand out, or give the showroom of your company a unique flair! An ingenious solution for companies and sports clubs, schools and daycare centres, or

your own garden at home. With Stylemaker® Individual, you can be creative and we serve as your assistant: Send us your desired motif through the integrated upload function on the melos.stylemaker.app.

In addition to professional logos, we are also able to process hand-drawn sketches and available to answer questions you have throughout the process.

Your logo as a file.

Your logo as a floor image.

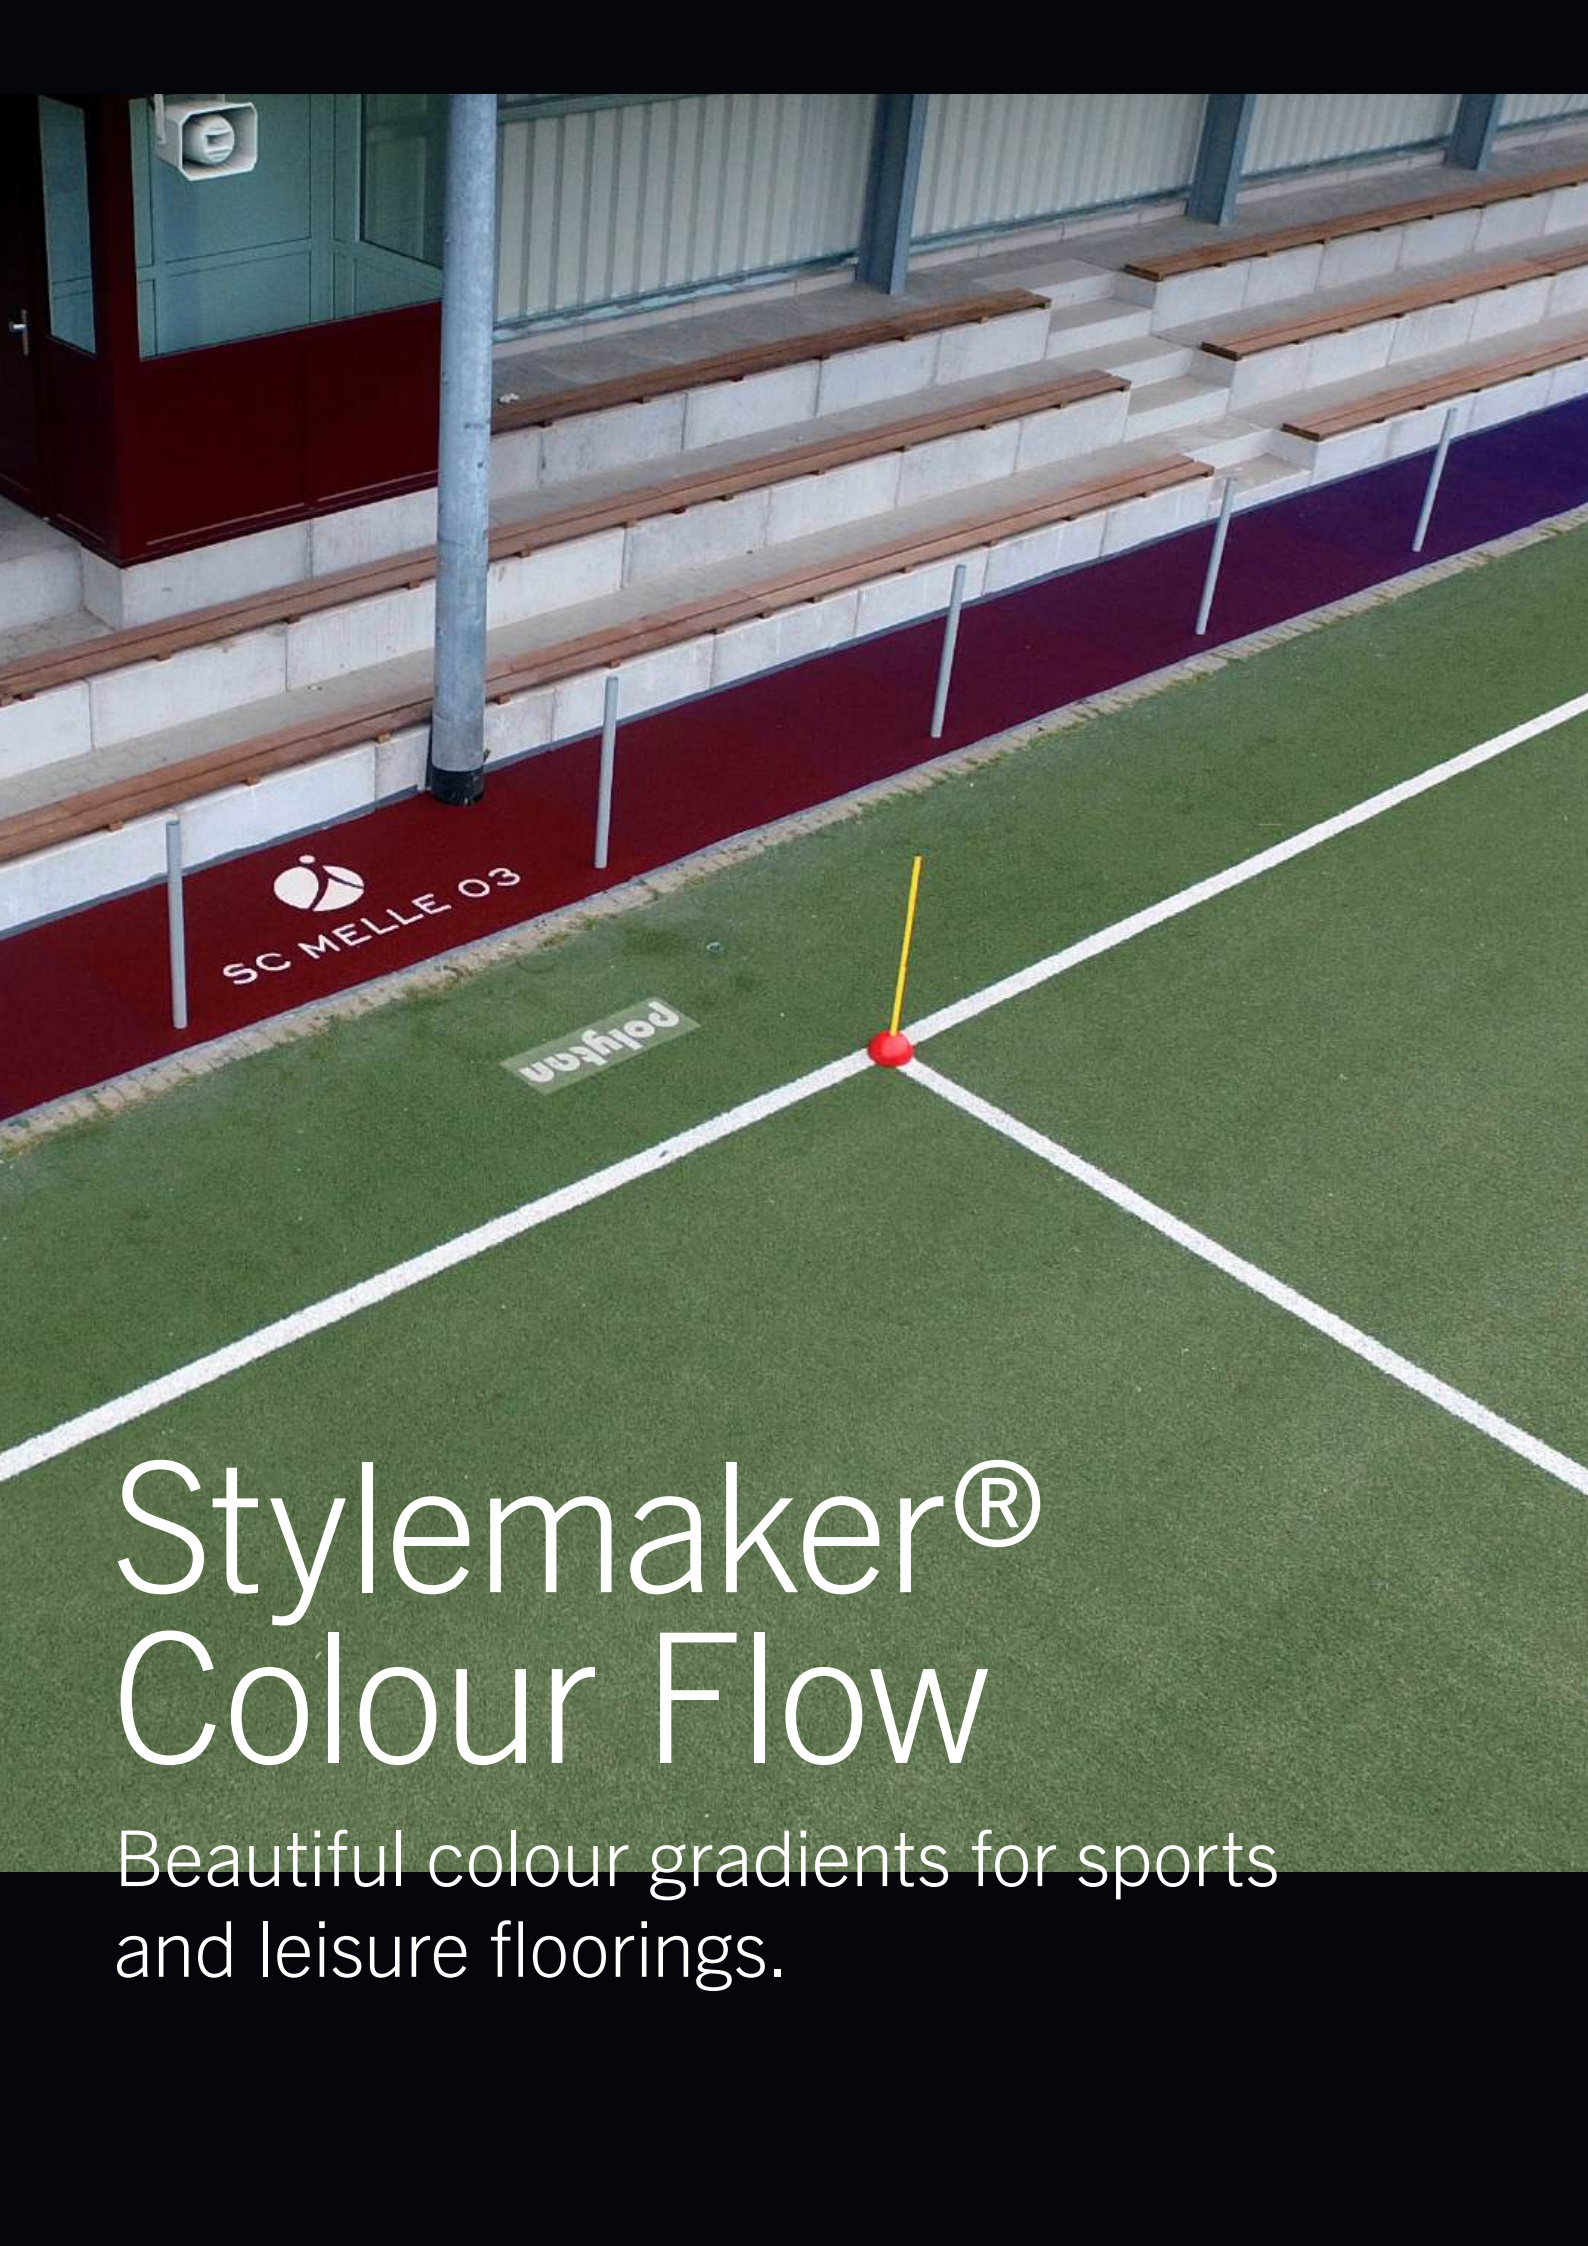

Stylemaker® Floor Games

Perfect for spontaneous fun.

Play is fun and healthy – and Stylemaker® floor games help promote exercise and healthy living for people of all ages. Whether for schools, playgrounds, senior communities, hospitals or shopping centers – there is a Stylemaker floor game for everyone. Example floor games include “Jump ‘n Count” for up-and-coming math geniuses to the classic game of “Twister.” Inquire today to learn more.

Stylemaker® Colour Flow
