

# Voqe | Denso | Rust-Oleum | Modern Masters DYNO Duraflex Elastomeric Coating

### **DESCRIPTION**

A water-based premium wall coating with excellent flexibility and weather resistance for both interior and exterior applications, Duraflex surpasses conventional acrylic coatings in many ways. It is highly flexible, effectively bridging hairline cracks. It has low dirt pick-up, so the film stays clean and is easily washable with water. It is breathable, allowing moisture beneath the cement to escape, and provides excellent resistance to efflorescence.

## PRODUCT FEATURES AND RECOMMENDED USES

Duraflex is ideal for coating wall surfaces that require long-lasting durability for both interior and exterior applications, especially on walls with hairline cracks.

#### **TECHNICAL DATA**

100% Elastomeric Acrylic Emulsion Type Color According to Dynosilk Color Card

**Texture** Satin Sheen Matt Non-Volatile 43 - 45 %by volume Coverage (Theoretical) 19 - 21 sq.m./Gallon Wet Film Thickness 160 - 180 microns **Dry Film Thickness** 70 - 80 microns/coat **Application** Brush, Roller or Spray

Diluent Clean Water 10 - 15 % by volume

**Drying Time** Touch Dry 0.5 - 1 hour (21-27°C and 50% RH) Hard Dry 2 - 4 hours Re-Coat 2 - 4 hours

## SURFACE PREPARATION

For re-painting, make sure the surface to be painted is free from dirt, grease, waxy contaminants, and loose or peeling paint. If mold and fungus appear on the painted surfaces, it is important to remove all existing mold before applying a new coat of paint. One effective method for killing mold is to wash the affected surfaces with Dyno Super Mold Killer. The treated surfaces should then be rinsed with clean water and allowed to dry before repainting.

For new masonry surfaces, allow the surface to dry completely for a minimum of 30 days. Before painting, ensure the surface is free from dirt, grease, and waxy contaminants.

### SUGGESTED COATING SYSTEMS

## For New Masonry Surfaces

Dyno Alkali Resisting Primer P-1000 1 Coat Dyno Duraflex Elastomeric Coating 2 Coats

### For Repainting

Dyno Chalking Sealer P-1100 1 Coat Dyno Duraflex Elastomeric Coating 2 Coats
