

# BRIDGE INSPECTION SERVICES

moffatt & nichol

**M**offatt & Nichol provides bridge inspection services to the U. S. Navy, numerous departments of transportation (DOT) and other infrastructure owners.

This work typically involves aspects of above and below water inspection, material sampling and testing, and specific inspection related to fracture critical members, load ratings, and bridge scour.

Moffatt & Nichol's bridge inspection work is often accomplished in association with the firm's well-established Transportation Practice, which has significant experience in bridge design throughout the United States.

## CERTIFIED

Many of Moffatt & Nichol's inspection team members and engineer-divers hold nationally recognized certifications.

- NBIS (National Bridge Inspection Standards, developed by the National Highway Institute)
- ADCI (Association of Diving Contractors International)
- SPRAT (Society of Professional Rope Access Technicians)
