

Risk Disclosure & Disclaimer

Last updated: 20 April 2026

Crypto assets are volatile and high risk. Transactions may be **irreversible** and may result in total loss. Blockchain networks can experience congestion, delays, forks, outages, or unexpected behavior. Third-party Providers may decline or reverse transactions based on compliance, technical issues, or policy reasons.

iSwap LLC provides a **non-custodial interface** and does not provide financial advice. You are responsible for verifying all transaction details and complying with laws (including tax obligations) in your jurisdiction.
