

# Ankita Gawde

Senior Designer – Interaction · UX/UI · Product

## WORK EXPERIENCE

**CITIUSTECH** | 2017 - PRESENT

### Radiation Therapy Workflow

*Interaction & Product Designer*

Conducted usability testing and uFMEA in multi-stage workflows. Created wireframes to reduce cognitive load and guide product decisions.

### AI Cell & Tissue Detection Tool

*Interaction & Product Designer*

Designed zoom, overlay, and markup flows in an AI-assisted viewer. Added structured results and version control for research traceability.

### LLM-Based Medical Coder

*Interaction & Product Designer*

Built conversational flows and trust features for AI-generated codes. Designed filters, scoring, and highlight logic to improve adoption.

### Spasticity Med EDU (Mobile App)

*Interaction & Product Designer*

Created mobile flows with timed prompts and symptom logic to enable consistent spasticity evaluation by undertrained providers.

### Remote IoT Monitoring Platform

*Interaction & Product Designer*

Designed device grouping, real-time alert triage, and dashboards to support scalable remote patient monitoring.

**E14 TECHNOLOGIES** | 2015 – 2017

### Tablet Condition Detection

*UI/UX Developer*

Developed diagnostic UI (TAB360) using motion cues and clear status indicators. Helped shape the MVP into a usable product.

## CERTIFICATES
