PROFILE

Technical Project Manager with 14+ years of experience in IT support, web development, UX/UI, and digital solutions. I combine strong technical understanding with structured project management, analytical skills, and a solution-oriented approach. Driven by creating clarity, smart workflows, and traceable processes in organisations that need increased efficiency and continuity.

PROFESSIONAL EXPERIENCE

SVT Production & Technology

2025

IT Project Manager (Internship)

- Completed technical assignments within analysis, documentation, troubleshooting, and process improvement.
- Improved internal routines, workflows, and ticket handling to increase clarity and traceability.
- Delivered a needs and gap analysis, improvement proposals, and a final report presented to responsible teams and decision-makers.
- Worked iteratively using agile principles (*Scrum*) and collaborated with both technical and non-technical teams to identify bottlenecks, risks, and improvement opportunities.

LANGUAGES

- Swedish – Fluent
- English – Fluent
- Persian – Native

ADDITIONAL MERITS

- B driving license
- Student representative for the IT Project Management programme
- Experience in leading and coordinating teams
- Experience working iteratively using agile methods (*Scrum/Kanban*)
- Long experience collaborating with developers, designers, and technical teams
- Experience improving digital workflows

PROFESSIONAL EXPERIENCE

Romella International AB

2007 - 2024

Technical Project Manager & Coordinator

Project Management & IT

- Led IT, web, marketing, and product development projects from planning to delivery.
- Worked iteratively with agile methods (*Scrum/Kanban*), including requirements, timelines, testing, and quality assurance.
- Ensured stable operations, support, documentation, and internal user training.
- Worked proactively with troubleshooting, incident handling, and continuous improvement of the IT environment.
- Coordinated cross-functional teams and improved internal processes, structure, and efficiency.

Web, UX/UI & Analytics

- Designed and developed websites and e-commerce solutions (*HTML, CSS, WordPress, Adobe Muse*).
- Improved UX, performance, and SEO based on data insights and user behaviour.
- Created prototypes and design concepts for modern, responsive interfaces.
- Worked data-driven with Google Analytics and optimised campaigns (*Google Ads*) to increase traffic, conversions, and business insights.
