

Digital Dental Show

DIGITAL TRANSFORMATION

EMBRACING THE FUTURE OF DENTISTRY

21-23 APRIL 2026 | HALL 7.1-7.3, MESSE BERLIN

DENTAL INNOVATION

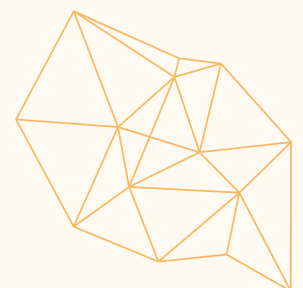

Returning to Berlin in 2026, the Digital Dental Show is the world's only specialist event entirely dedicated to digital technologies in dentistry. With extensive networking opportunities, engaging social interactions, and a hands-on, immersive atmosphere, it offers a truly unique experience for dental professionals.

From AI-driven diagnostics to 3D printing and fully integrated digital workflows, technology is revolutionising clinical processes and re-defining treatment standards. These innovations empower dental professionals to deliver care that is not only more precise and personalised, but also more efficient and cost-effective.

As the industry evolves, so too do the opportunities — and the challenges. Staying ahead requires more than investment in technology, it demands a commitment to continuous education, training, and collaboration.

THE MISSION

DDS aims to provide an exclusive forum for the discussion of the latest developments in digital dentistry and for the education of general dental practitioners in particular about the benefits that arise from the integration of new technologies into their daily clinical workflows.

2026

AT A GLANCE

- 3D printing
- CAD/CAM and practice software
- CBCT
- digital imaging
- digital orthodontics
- digital radiography
- milling machines
- intra- and extra-oral scanners
- laboratory scanners

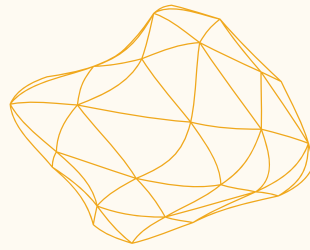

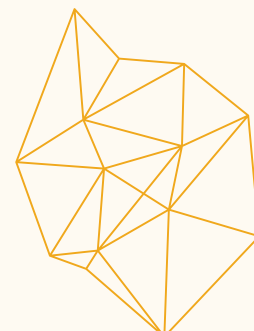

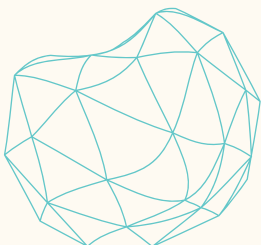

TARGET GROUPS

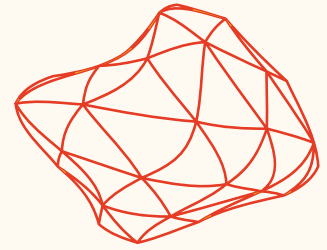

The Digital Dental Show is designed for dental professionals and dental students from around the globe who are eager to connect, collaborate, and explore the latest innovations in digital dentistry.

For industry sponsors, the event offers a unique opportunity to engage directly with key decision-makers, showcase cutting-edge technologies, and position your brand at the forefront of digital transformation in dentistry.

With a highly targeted audience with a national and international reach, DDS provides an ideal platform for meaningful exposure, strategic partnerships, and long-term business growth.
