

Precision laser cutting, built for industry leaders.

At Indaco Metals, we don't just cut metal—we craft precision, engineered to fuel your success. As a family-owned business built on trust, relationships, and an uncompromising commitment to quality, we deliver cutting-edge fiber laser technology with the speed, power, and accuracy your projects demand.

We don't just form metal—we power American industry with quality, consistency, and expertise.

PHOTO(S) OF EXAMPLE PROJECTS

POWER. PRECISION. PERFORMANCE.

12kW of Cutting Power

Slice through thick, tough metals with effortless precision.

± 0.03mm Accuracy

Flawless cuts, every time. No wasted materials, no rework.

Fast Turnaround, Zero Hassle

We cut fast, so you stay ahead of schedule.

Clean, Burr-Free Edges

No grinding, no post-processing headaches.

Custom & Bulk Orders

Whether it's a one-off prototype or full-scale production, we deliver with consistency and reliability.

Built for Tough Materials

Stainless Steel, Mild Steel, Aluminum, Copper, and Brass—we cut it all.

ENGINEERED TO SLICE THROUGH LIMITS

One of 2 in the nation, our cutting bed offers seamless, high-volume production with dual 6'x12' Shuttle tables with automatic loading.

MAX CUTTING THICKNESS

STAINLESS STEEL up to 40mm

ALUMINUM up to 30mm

MILD CARBON STEEL up to 40mm

COPPER & BRASS up to 10mm

Let's build something great.

For decades, businesses have trusted Indaco Metals to provide high-quality metal solutions that keep their operations running smoothly. We're not just a vendor—we're a partner.

Family-Owned, Industry-Tested

A company built on integrity, quality, and real relationships.

Fast & Reliable

We deliver on time, every time. Your deadlines are our deadlines.

Technology + Craftsmanship

State-of-the-art laser cutting, backed by skilled experts.
