# Cavity Pressure Sensor IDS-C-B2

2.5 mm | 5 pC/bar

Gospodinjska ulica 8

1000 Ljubljana

+386 51 330 949

www.dynamics.si

#### Description

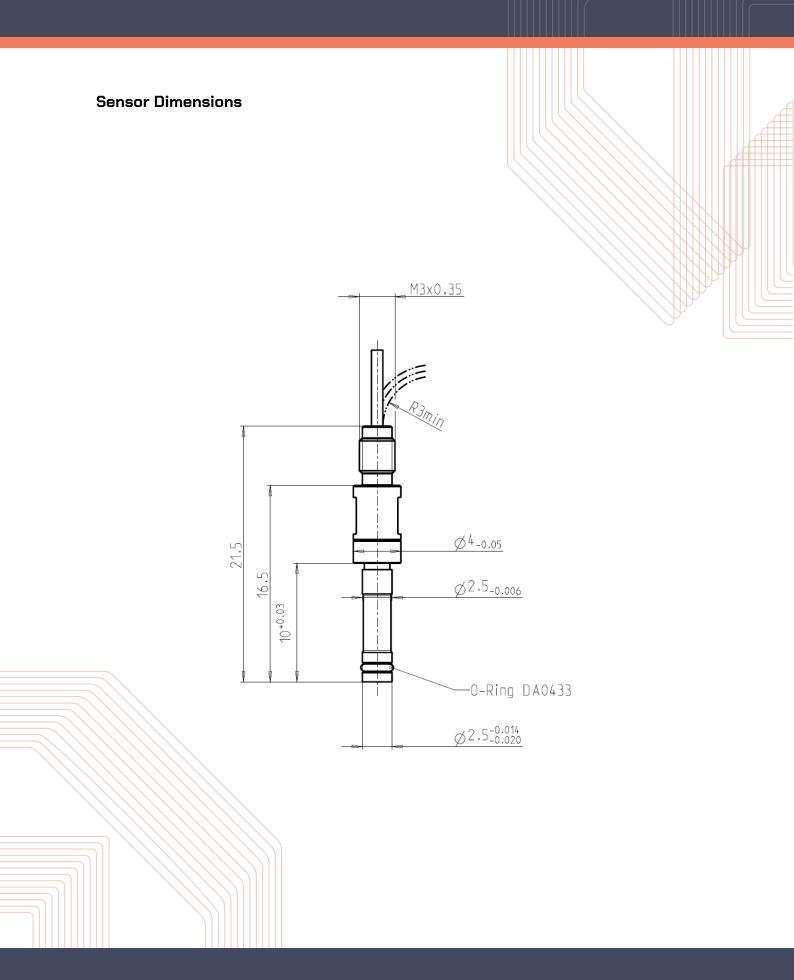

Precision crystal elements, tailored material selection and minimal tolerances in production make the cavity pressure sensors high-precision instruments that deliver a reliable, undistorted pressure signal. Its well-proven design guarantees highest durability and consistent performance over its entire lifetime. In combination with the single wire cable and the mounting aids, the sensor can easily be installed and integrated into injection molding systems.

#### **Key Features**

- Measures Pressure Profiles in Injection Molding Systems
- Pressure Range up to 2000 bar
- Suitable for High Temperatures up to 450°C
- Compact and Robust Design
- Single Wire Cable
- Installation Directly into Mold Cavity for Unmatched Precision

#### **Technical Data**

Sensor Type	Direct
Tip Diameter	2.5 mm
Operating Principle	Piezoelectric, Charge Output
Sensing Element	Quartz
Dynamic Measuring Range	0 2000 bar
Overload Pressure	2500 bar
Sensitivity (nominal)	5 pC/bar ± 2 %
Linearity	≤ ± 1% FSO
Temperature Mold	200 °C
Temperature Melt (front of sensor)	450 °C
Internal Isolation Resistance	> 10 <sup>13</sup> Ohm (25 °C)
Natural Frequency	80 kHz
Interfaces	
Connector type	M4x0.35

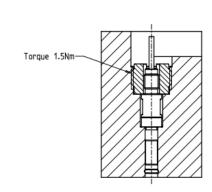

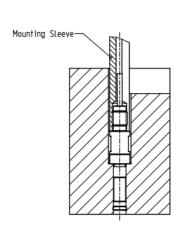

#### **Mount Dimensions**

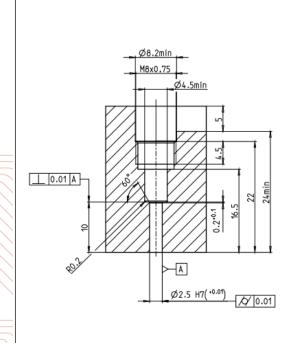

• Mounting Nut

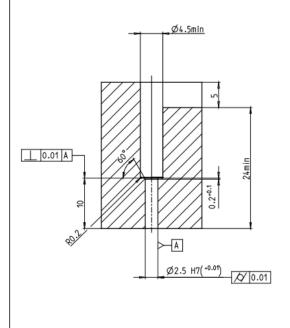

• Mounting Sleeve

 Borehole Dimensions -Mounting Nut  Borehole Dimensions -Mounting Sleeve

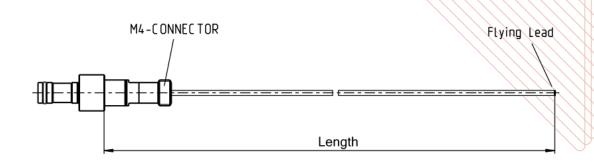

All Dimensions are in mm

## 1 Industry Dynamics

#### Cable

• Single Wire Cable

Single Wire Cable SWC3.zzz

zzz = Length in Meters: 1 | 1.5 | 2 | 2.5 | 3 e.g. 1.5 m Cable Length: SWC3.015

### **Scope of Supply**

		Order Code
Sensor IDS-C-B2 with SWC3 Single Wire Cable	1	IDS-C-B2.0
Sensor Type Plate	1	Included
Installation Guide	1	Included
Test Record	1	Included
O-Ring Seal	1(spare)	DA0433

#### Accessories

		Order Code
Mounting Nut	Optional	IMA_MN2
Mounting Sleeve	Optional	IMA_MS2
Socket Wrench	Optional	IMA_SW2
