Strategic EU-Based Corporate Structuring for International Business

## Overview

Cyprus is an EU Member State and a leading jurisdiction for international entrepreneurs seeking legitimate access to European markets, an efficient tax regime, and regulatory credibility. With a corporate tax rate as low as 12.5% and a growing network of double tax treaties, Cyprus offers significant advantages for holding, trading, and intermediary structures.

FPS Financial Group, through our local partners in Nicosia, offers comprehensive Cyprus company formation and substance solutions tailored to your operational and compliance goals.
