How to Get There

Chile is well connected, with direct flights from major cities across Europe and North America arriving daily at Santiago International Airport (SCL). From Santiago, travelers typically continue with a domestic flight to Balmaceda Airport (BBA), the main gateway to Chilean Patagonia's Aysén Region. Once you arrive at Balmaceda, Lago Dorita is located approximately two hours west towards the coast, offering a scenic drive through forests and valleys. As a reference, Lago Dorita is also just one hour from the city of Coyhaique. Whether you arrive at Balmaceda Airport or are staying in Coyhaique, our team will coordinate private ground transportation to bring you directly to Lago Dorita. From the moment your journey begins until your return, we handle all logistics to ensure a smooth, safe, and worry-free Patagonian escape.
