ABOUT VISION WOOD

Sourced and manufactured within North America, Vision Wood offers a premiere selection of thermally modified wood products for all of your outdoor and indoor projects. Thermally treated wood thoroughly alters the cellular structure of the lumber, creating a high-quality, vibrant material built to perform in the harshest of climates.

Sustainability, durability, innovative technology – several of our core tenets in bringing to market a product that delivers exotic appeal with only the natural elements of heat, steam, and time. With performance and quality in mind, we aim to provide generational wood for all design concepts.
