practicing medicine

vipcare 

Who We Are

Specializing in value-based primary care.

Since 2006, VIPcare has been transforming primary care by focusing on prevention, quality, and reduced costs of care. Today, our VIPcare clinics represent a large and growing team of medical professionals who are devoted to 5-star patient care and share a deep commitment to our proven Better Health model.

What We Do

Empowering physicians to deliver value-based care.

We use a value-based care model to focus on quality rather than quantity of services provided. By providing proactive preventive care and chronic disease management, our physicians are controlling costs of care and enhancing the overall patient experience.

What to Expect

Exploring a day in the life of a VIPcare physician.

We prioritize preventive care, chronic disease management, and quality.

Our Best Practices:

- ✓ **We Are the Quarterback in Patient Care:** Treat diseases in the primary care setting, conduct in-office procedures, and limit unnecessary referrals.
- ✓ **Make the First Visit Count:** Establish new patients quickly to ensure timely, appropriate care and improved patient satisfaction.
- ✓ **Prioritize Well Visits and Conduct Comprehensive Workups:** Truly comprehensive care. Asymptomatic and symptomatic documentation and treatments.
- ✓ **Routine Engagement:** Provide regularly scheduled follow-up care with the goal of seeing patients at least four times a year.
- ✓ **Reduce Unnecessary Care:** Improve outcomes and reduce delays in diagnosis or treatment.
- ✓ **Leverage Data and Technology:** Our tools and insights to inform clinical decisions, identify care gaps, and drive performance improvement.
- ✓ **Complete Documentation:** Maintain accurate documentation, coding, billing, and continuity of care.
- ✓ **Concierge Medicine:** Provide same-day visit options.

Our Support Model & Goals

Supporting accountability and driving success.

We set you up for success, right from the start, by providing the support, tools, resources, and coaching you need to deliver 5-star care to your patients while exceeding your goals.

Our Physician Goals:

- **HEDIS & Quality Performance:** 5 star quality through the actioning of open care gaps so each patient receives the preventive and chronic care management they deserve.
- **Patient Utilization & Access:** Manage patient visit frequency, access, and outcomes to ensure patient needs and panel size are considered.
- **Referral Management & Coordination:** Appropriate use of specialty care by tracking referrals to reinforce the importance of proactive primary care.
- **Panel Growth & Engagement:** Increase patient loyalty and grow panels with collaborative support from marketing, outreach, and operations.

Why Join VIPcare?

Rediscover the joys of practicing medicine.

Our VIPcare model frees you to spend more time with patients. You'll see only 14 patients per day, while our support teams manage the operational side of our clinics. You'll also be part of a peer community that practices value-based care and shares the same goal to take better care of patients.

What We Offer:

- A competitive compensation package, including a performance bonus and 401(k) with company match
- Comprehensive medical, dental and vision benefits
- Paid time off and paid holidays
- A full complement of administrative, financial and technological resources
- Professional development, including a CME allowance and support from a community of like-minded peers
- Malpractice insurance
