

Worksheet 2

Nola's Journey Map

Draw the path of Nola's journey and sketch one animal she met at every stop.

The map shows a dotted path starting from Africa, moving to India, then to China, then to Borneo, and finally to Australia. Each stop on the path is accompanied by a large circle for sketching an animal and a rectangular box for writing the animal's name. The boxes are labeled "Name:". The map also includes labels for Africa, India, China, Nepal, Borneo, and Australia. There are several clouds scattered around the map. A large watermark "Character for Kids" is visible across the map.
