WELCOME TO OUR WORLD

Staverton has a longstanding history in office furniture design. We are recognised for bringing form, function and flexibility together without compromise. By involving our clients at every stage of the work process, we find –together– the right solution for their specific needs.

British and proud, we have a manufacturing facility in South Yorkshire and a showroom in Clerkenwell, London. With the latest BAZ processing machinery recently installed, the factory has more than 38,000 sq ft of space for manufacture and assembly and ample room for our design team to turn client requirements into fully developed designs.

Staverton's skilled team of professionals is committed to delivering the highest quality requirements: our products are designed to achieve FIRA's gold standard, the world's leading independent furniture testing centre. Our bespoke approach, innovative design and collaborative method have earned us a name as a responsible and reliable award-winning British manufacturer.

We comply with all industry regulations, including the supply of responsibly sourced wood and other controlled sources, on-site personnel safety and conduct, quality control, and adherence to management standards such as ISO 9001, ISO 14001, BSI Membership, Safe Contractor Certificate, FIRA Gold Certificate, FISP Membership and FSC® Certificate.

POSITIVE CHANGE

We need to be the change we want to see. Leading by example while learning from others is the best way to drive change.

Business as usual is no longer enough. Nor is merely complying with regulations. We must do more than is expected of us. We need to improve each day. We need to understand our whole impact on the world. And we need to work together to ensure that we learn from each other and drive change.

There is an onus on us not just as manufacturers and designers of products but as individuals. Sustainability can be designed into systems and products, but the real change we need to see is in our attitudes and behaviours. We are all in this together and we all have a role to play.

Respect for the environment is in Staverton's DNA. We care for our setting by supporting sustainable forestry:

SL2 Sit-Stand Workstation

Product Features

SL2 Sit-Stand Workstation

The SL2 combines minimalist design with advanced sit-stand functionality to support health, wellbeing, and productivity. Its lightweight framework makes it ideal for open-plan offices, while 18 mm tops allow for a wide variety of finishes to suit any workspace.

Flexible & Scalable

SL2 workstations can be used independently or linked to form long benches, supporting both individual focus and collaborative projects. Intermediate upstand columns allow seamless side-by-side linking, and removable panels provide easy access to cables. Mobile options are available for agile working.

Cable Management

A versatile cable management 'bridge' integrates power and data services, with optional vertical-cladding panels forming a secure bulk-capacity riser along the full bench width. The bridge accommodates power bars, PDUs, and GOP boxes while keeping floor cable outlets out of sight.

Durability & Finishes

Designed to encourage movement, SL2 allows users to set standing intervals, track calories burned, memory positions and worksurface controls via desk or mobile device to help personalise ergonomic settings, creating healthier, more productive workspaces.

Staverton is committed to a range of socially aware goals, from addressing individual well-being to ensuring minimal environmental impact. [Discover more about our efforts.](#)
