

Quick Overview ZD+

December 2025

WELCOME TO OUR WORLD

Staverton has a longstanding history in office furniture design. We are recognised for bringing form, function and flexibility together without compromise. By involving our clients at every stage of the work process, we find –together– the right solution for their specific needs.

British and proud, we have a manufacturing facility in South Yorkshire and a showroom in Clerkenwell, London. With the latest BAZ processing machinery recently installed, the factory has more than 38,000 sq ft of space for manufacture and assembly and ample room for our design team to turn client requirements into fully developed designs.

Staverton's skilled team of professionals is committed to delivering the highest quality requirements: our products are designed to achieve FIRA's gold standard, the world's leading independent furniture testing centre. Our bespoke approach, innovative design and collaborative method have earned us a name as a responsible and reliable award-winning British manufacturer.

We comply with all industry regulations, including the supply of responsibly sourced wood and other controlled sources, on-site personnel safety and conduct, quality control, and adherence to management standards such as ISO 9001, ISO 14001, BSI Membership, Safe Contractor Certificate, FIRA Gold Certificate, FISP Membership and FSC® Certificate.

POSITIVE CHANGE

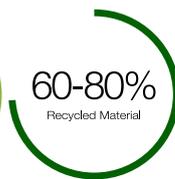

We need to be the change we want to see. Leading by example while learning from others is the best way to drive change.

Business as usual is no longer enough. Nor is merely complying with regulations. We must do more than is expected of us. We need to improve each day. We need to understand our whole impact on the world. And we need to work together to ensure that we learn from each other and drive change.

There is an onus on us not just as manufacturers and designers of products but as individuals. Sustainability can be designed into systems and products, but the real change we need to see is in our attitudes and behaviours. We are all in this together and we all have a role to play.

[Join Us](#)

Respect for the environment is in Staverton's DNA. We care for our setting by supporting sustainable forestry:

 	 	 	
<p>Frame, Legs and Brackets (Mild Steel)</p>	<p>FSC Certified Worksurfaces (MFC Wood)</p>	<p>Actuators and Control (Height Adjustable Actuators Column Motor Drive)</p>	<p>Edging (ABS)</p>
<p>Screen Upholstery Fabric (Polyester)</p>			<p>Screen Trim (Virgin PVC Anchor)</p>
<p>Packaging (Cardboard)</p>			<p>Electrics (Powerbar, Power Unit Interconnector Lead)</p>

Minimalist Aesthetic Maximum Practicality

ZD+

A full collection of desks, benches and tables feature light floating tops that sit away from the structural frame to provide a clean, sharp and modern look.

Quality is assured thanks to a lifetime framework guarantee. Plus the ZD+ range is FIRA Gold certified – the ultimate mark of furniture quality and excellence.

Individual workstation heights can be block-adjusted by up to 100mm for added functionality. ZD+'s screens can also be personalised by choosing from a diverse range of fabric alternatives, textures and colours.

Bench leg frame sizes are available in 1600mm or 1200mm depths and desk leg frame sizes are available in 800mm or 600mm depths. The framework is designed to accommodate a variety of sizes and shaped top panels. For additional details, please contact the Staverton team.

ZD+ offers unprecedented flexibility for today's changing office environment. It's easy to install, easy to specify, and easy to reconfigure.

Desktop power and data distribution options are available.

There are several standard fabric ranges available for screens, with each range providing a broad selection of colours to choose from.

Extended Options

The ZD+ range offers many options including inset end-legs, soft barrel-shaped worktops and retrofittable sit-stand conversion kits to meet your workplace needs.

Future-Proofed Telescopic Beam

ZD+'s telescopic cable managed beams enable the size of the workstation to change over time and extend the life of the product. The beam also has integral horizontal cable management capability.

Discreet Cable Management

Cable management is simple and effective, concealing all vertical and horizontal cable paths discreetly. A vertical cable management riser hides cables from view, and a large-capacity hook-on cable management tray can be hinged down from either side.

Typical Bench Configuration

Four-Person Back-To-Back Bench

Typical back-to-back bench configurations, two-person, six-person and eighth-person.

Typical Desk Configuration
